The floor of the sub-station shall have cable trenches of 0.6m. depth the layout for which will be given at the time of actual construction. For this purpose, a dummy floor of 0.6m. depth shall be provided to facilitate cutting/digging of floor for installation of equipments and making subsequent changes in trenches. This floor shall be capable to withstand minimum weight of 10 tonnes of each transformer mounted on four wheels.

The break up spaces required for different installations in a sub-station are given below :

Supply company's switchgear room and/or space for metres.

2. Transformer Rooms.—The number and size of transformer rooms shall be ascertained from the total power requirements of the consumer. To determine the size of transformer and clearance around a transformer, reference may be made to good practice (IS : 1866-1967 Code of Practice for Installation and Maintenance of Transformers). A 500 KVA transformer may be provided with a minimum space of 4 m × 4 m.

If transformer is to be installed outdoor space shall be provided on similar considerations and adequate provisions for safety enclosure is to be made. For transformers having large oil content (more than 2000 litres), soak-pits are to be provided in accordance with Rule 64 of Indian Electricity Rules, 1956.

3. High Voltage Switch Rooms.—In case of sub-station having one transformer, the owner is required to provide only one-high voltage switch. In the case of single point supply for two transformers, the number of switches required is 3 and for 'n' transformers the number of switches is 'n' plus 1. The floor area required in case of a single switch will be roughly 4 m × 4 m and for every additional switch the length should be increased by 1 m.

4. Low Voltage Switch Rooms.—The floor area requirement in respect of low voltage switchgear room cannot be determined by any formula.

5. Room for Stand-by Generator.—A room space not less than 6 m × 9 m may be provided for housing a standby generator set of 50 kW.

Other Requirements for Sub-station

1. The sub-station will preferably be located on the ground level following which it can be in the basement floor but in no case at higher floors.

2. The entire space will be provided at one floor in continuation.

3. The minimum width of the sub-station space shall not be less than 6 metres.

4. The areas given above in respect of the different categories of rooms hold good if they are provided with windows and independent access doors.

5. All the rooms should be provided with partitions up to the ceilings and shall have proper ventilation. Special care should be taken to ventilate the transformer rooms and where necessary louvers at lower level and exhaust fans a higher level shall be provided at suitable locations.

6. In order to prevent storm water entering the transformer and switch rooms through soak-pits, the floor level of the sub-station shall be at least fifteen c.m. above the highest flood water level that may be anticipated in the locality.

Cable Trenches, Shafts, etc.

Suitable number of vertical shafts, rising mains, distribution boxes, etc. shall also be provided as per the requirements at suitable location. Cable trenches with suitable handy covers for entry of the cables up to the sub-station from the street/adjoining building and from the sub-station onwards up to the streets/adjoining other building shall also be provided as per the requirements. These vertical shafts, rising mains, distribution boxes, cables, trenches, etc., shall be so constructed as to be accessible only to the authorized personnel. The rising mains and other installations in the vertical shafts, tap-off boxes, distribution boxes, etc., required at each floor shall be provided, installed and maintained by the owner at their own cost.

Adequate enclosed space shall also be provided at each floor for installation of equipments for distributions on respective floors such as distribution boxes, cut out and meter boxes and main switches.

Location of Switch Room

In large installations other than where a substation is provided, a separate switch room shall be provided, this shall be located as closely as possible to the electrical load centre and suitable ducts shall be laid with minimum number of bends from the point of entry of the supply to the position of the main switch gear. The switch room shall also be placed in such a position that rising ducts may be readily provided there from to the upper floors of the building in one straight vertical run. In larger buildings, more than one rising duct and horizontal ducts may also be required for running cables from the switch rooms to the foot of each rising mains. Such cable ducts shall be reserved for the electrical services which may, however, include medium and low voltage installations, such as call-bell systems; telephone installations should be suitably segregated.

Location and Requirements of Distribution Panels

The electrical centre gear distribution panels and other apparatus, which are required on such floor may conveniently be mounted adjacent to the rising mains, and adequate space should be provided at each floor for this purpose.

Location and Requirements of PBX/PABX Rooms

Information regarding provisions for and location of PBX/PABX rooms, telephone outlets and risers shall be ascertained from the relevant authority. Adequate space should be provided for installation of sub-distribution boards.

General

The maintenance of the built-up space for electrical sub-station, distribution equipment, vertical shafts and enclosures at each floor shall be done by the owner.

The stand-by arrangement for electricity supply up to and including the sub-station equipment and distribution pillars at the sub-station shall be provided compulsorily. The following rules shall apply for the costs of the installations :

- (1) In the case of multi-occupancy/Multi-tenancy/multi-ownership buildings 50 per cent of making the electricity supply arrangements up to and including L.T. main controlling switch gear in the substation (including normal and stand-by arrangements) shall be chargeable to the owners/promoters of the proposed building.

The entire cost of stand-by arrangement shall be chargeable to the owner.
- (3) The Authority shall have the right to supply electricity from the sub-stations established in the buildings, as mentioned in item 1 and 2 above to the outside consumers.
- (4) In case any owner of single tenancy/single ownership/single occupancy buildings desires the sub-station for his/her exclusive use, the cost of H.T. Switchgear, transformers and the connected L.T. main controlling switchgear for normal supply arrangements shall also be chargeable to the owner.

The West Bengal Land Reforms Act, 1955 (West Ben. Act X of 1956) extends to the whole of West Bengal except the areas described in Schedule I of the Calcutta Municipal Act, 1951, as deemed to have been amended under section 594 of that Act.

The Calcutta Municipal Act, 1951 (West Ben. Act XXXIII of 1951) has been repealed by the Calcutta Municipal Corporation Act, 1980 (West Ben. Act LIX of 1980). Besides, the jurisdiction of Calcutta has been expanded by the Calcutta Municipal Corporation (Amendment) Act, 1983 (West Ben. Act XXXII of 1983). In order to remove any doubt as to the extension of the West Bengal Land Reforms Act, 1955 to the areas to which it was applicable prior to the enforcement of the Calcutta Municipal Corporation Act, 1980 as amended by the Calcutta Municipal Corporation (Amendment) Act, 1983, an amendment of the West Bengal Land Reforms Act, 1955 has become necessary.

The Bill seeks to achieve the above object.

PART II—Advertisements Notices

ADVERTISEMENT POLICY GUIDELINES OF THE GOVERNMENT OF WEST BENGAL

ADVERTISING policy of West Bengal Government has been revised in the light of decisions taken by the State Government on the recommendations of the Fact Finding Committee on small and medium newspapers. Following is the text of the policy guidelines.

1. The Department of Information and Cultural Affairs in pursuance of the Centralised Advertising Policy of the Government of West Bengal, shall release advertisements to various newspapers/periodicals and use other media like Radio/TV on behalf of the departments/directorates of the State Government and their attached subordinate offices. The primary objective of the Government advertising is to secure the widest possible publicity coverage, keeping in view the special needs and target audience of the message contained in the advertisement.

2. The Government upholds the views of the Committee that a standard newspaper should abstain from indulging in catering motivated news, character assassination stories, preaching violence and communal hatred and desist from yellow journalism and pornography which debases the society. Such paper should be informative, educative and entertaining.

3. **Advertisement Advisory Committee.**—There should be a District Advertisement Advisory Committee for each district to advise the State Government/District Authority regarding release of advertisement in the district newspapers and periodicals and prepare a panel of approved newspapers/periodicals for the district concerned. The Department of Information and Cultural Affairs will constitute these Committees for each district with officials and prominent non-officials of the district as members of the District Advisory Committee. Apart

from other members, the District Magistrate should be in the District Committee as the Chairman and the District Information Officer as the Member-Secretary.

4. The policy regarding release of Government advertisements in the district newspapers and periodicals, is as detailed below :

- (a) The main purpose of releasing Government advertisement to district newspapers and periodicals is to get the maximum publicity on a certain subject through these papers.
- (b) In releasing advertisements political colour of the newspaper/periodical should not be taken into consideration.
- (c) The Government advertisement should not be treated as financial assistance. The advertisement will be released, if and when necessary, to publicise certain message ideals among the people.
- (d) Advertisements should not be released to any house magazine or any souvenir. But if the West Bengal Government or the Central Government sponsor a souvenir, the State Government might reconsider.

5. Minimum requirements for qualifying for Government advertisement are :

- (a) Number of pages—Standard Newspapers should contain at least 4 pages in one-half Crown and 6 pages in not lesser size than one-fourth Crown size in case of Dailies, Weeklies, Bi-weeklies and Fortnightlies. For Monthlies, Bi-monthlies and Quarterlies, the minimum requirement should be 32 pages of one-fourth Crown or one-eighth Demy size.

(b) At least 60% of space should be covered by reading material and advertisement should not be more than 40% of the space.

(c) Number of issues required in a year in normal circumstances :—

	(No. of Issues)
Dailies	350
Weeklies	44
Bi-weeklies	88
Fortnightlies	22
Monthlies	10
Bi-monthlies	6
Quarterlies	4

The stipulation regarding minimum number of issues may be relaxed in special circumstances considering individual cases.

(d) Minimum period of continuity required in normal circumstances :—

	(No. of Issues)
Dailies	60
Weeklies	12
Bi-weeklies	24
Fortnightlies	6
Monthlies	6
Bi-monthlies	3
Quarterlies	2

(e) Minimum requirement of circulation: 500 copies paid circulation.

6. Pending setting up of the State Audit Bureau of Circulation, the State Government/the Advisory Committee will require a Chartered Accountant's Certificate in the prescribed pro-forma (in original) from a small newspaper claiming paid circulation of 500 copies and above for the purpose of receiving Government advertisement. The circulation of a newspaper/periodical relates to the preceding calendar year from January to December.

7. There should also be an annual certificate of printing indicating average number of copies printed month-wise to be obtained from the Printer in support of the claim of circulation in prescribed pro form. The Printer's Certificate will mean here a certificate (in original) from the owner of the Printing Press from where the paper is printed. The certificate about the circulation of a newspaper/periodical is to be obtained by District Information Officer in the prescribed pro-forma normally by 28th February for the preceding year from January to December. In case the Editor, Publisher and Printer happen to be the same person, a scrutiny of the certificate may have to be made by a competent authority approved by Government, if necessary.

8. The rates of advertisement for the district newspapers and periodicals are uniformly fixed as per following schedule :—

Per Col-cm	Circulation
(1) Rs. 4.00	500 to 1,000
(2) Rs. 5.00	1,001 to 2,000
(3) Rs. 6.00	2,001 to 5,000
(4) Rs. 8.00	5,001 to 8,000
(5) Rs. 12.00	8,001 and above.

9. Where rates are quoted by page it may be recalculated in column basis.

10. The District Advertisement Advisory Committee may recommend for verification of the circulation figure of any newspaper/periodical by an appropriate authority approved by Government in addition to Chartered Accountant's Certificate and Printer's Certificate in case the circulation figure of any newspaper/periodical appears to be doubtful. The circulation figure, if proved incorrect, will render the newspaper/periodical ineligible for advertisements, besides any other action which the State Government may consider appropriate.

11. Registration with the Registrar of Newspapers, Government of India, as a pre-requisite condition for State Government advertisement may be waived by the Advisory Committee in favour of small newspapers provided they conform to the specification or standard laid down by the State Government.

12. The classified advertisements on works of different departments in the districts up to the amount of Rs. 5,000 and these for minor employment in local offices should normally be earmarked for district papers with provision for release of the same in Calcutta dailies also, if necessary.

13. The State Government has agreed to increase the share of advertisements (in terms of money) for small newspapers/periodicals to 15% of its annual normal budget allotment for advertisements.

14. District Information Officers may utilise 25% of the district allotment for publication of advertisements received from local State Government offices.

15. All State Government advertisements in the districts are to be issued through a single authority, i.e., District Information Officer, except in special cases like Family Planning and Tourism advertisement.

16. The Advertisement issued to journals/periodicals in the districts may also be released to the district daily newspapers by District Information Officers. In addition, the district dailies may get advertisement directly from the headquarters if they satisfy the standard, quality and circulation for this purpose. Payment for such advertisements will be made from the headquarters.

17. Every newspaper|periodical shall apply for inclusion in the prescribed Media Form to the District Information Officer for inclusion in the Media List.

18. The District Advertising Advisory Committee shall take decision on each application on the basis of the guidelines provided to them.

19. Inclusion in the Media List does not entitle any approved newspaper|periodical to get each and every advertisements released from the district. The Director of Information may, however, send direction that a particular advertisement shall be released to all the approved newspapers|periodicals of the district.

20. The Information and Cultural Affairs Department will release fund for advertisement to the District Information Officers just after the budget allotment is received in the department and the District Information Officers will see that advertisement bills of small newspapers|periodicals submitted to their respective offices are passed in time.

21. The District Advertisement Advisory Committees may devise ways and means to check regularity of the publication|newspaper in their respective districts. It may request the newspaper|periodicals approved by the District Advertisement Advisory Committee for release of Government advertisements to send one copy of the each issue of the said publications to the Member-Secretary of the Committee as soon as they are published.

22. The revised guidelines based on the Government decision on the recommendation of the Fact Finding Committee may be followed by all the District Press Advertisement Advisory Committees. In case of any doubt or dispute about the guidelines the matter may be referred to the Government for final decision.

GOVERNMENT OF WEST BENGAL

LEGISLATIVE DEPARTMENT

NOTIFICATION

No. 356-L.—19th February, 1986.—The Governor having been pleased to order, under rule 66 of the

Rules of Procedure and Conduct of Business in the West Bengal Legislative Assembly, the publication of the following Bill, together with the Statement of Objects and Reasons and the Financial Memorandum which accompany it, in the *Calcutta Gazette*, the Bill, the Statement of Objects and Reasons and the Financial Memorandum are accordingly hereby published for general information:—

Bill No. 3 of 1986

THE BIDHAN CHANDRA KRISHI VISWAVIDYALAYA (AMENDMENT) BILL, 1986.

A

BILL

to amend the Bidhan Chandra Krishi Viswavidyalaya Act, 1974.

WHEREAS it is expedient to amend the Bidhan Chandra Krishi Viswavidyalaya Act, 1974, for the purpose and in the manner hereinafter appearing;

West Ben.
Act XLIX
of 1974.

It is hereby enacted in the Thirty-seventh Year of the Republic of India, by the Legislature of West Bengal, as follows:—

Short title
and
commence-
ment.

1. (1) This Act may be called the Bidhan Chandra Krishi Viswavidyalaya (Amendment) Act, 1986.

(2) It shall be deemed to have come into force on the 19th day of October, 1985.

*The Bidhan Chandra Krishi Viswavidyalaya (Amendment)
Bill, 1986.*

(Clauses 2, 3.)

Amendment of section 37 of West Ben. Act XLIX of 1974.

2. For sub-section (3) of section 37 of the Bidhan Chandra Krishi Viswavidyalaya Act, 1974 (hereinafter referred to as the principal Act), the following sub-section shall be substituted and shall be deemed to have been substituted with effect from the 20th day of July, 1981 :—

“(3) The budget for each year and the latest audited accounts shall be presented to and considered by the University at a meeting convened for the purposes.”.

Repeal and saving.

3. (1) The Bidhan Chandra Krishi Viswavidyalaya (Amendment) Ordinance, 1985 is hereby repealed.

West Ben. Ord. XII of 1985.

(2) Notwithstanding such repeal, anything done or any action taken under the principal Act, as amended by the said Ordinance, shall be deemed to have been validly done or taken under the principal Act, as amended by this Act.

STATEMENT OF OBJECTS AND REASONS.

Sub-section (3) of section 37 of the Bidhan Chandra Krishi Viswavidyalaya Act, 1974 as amended by the Bidhan Chandra Krishi Viswavidyalaya (Amendment) Act, 1981 reads as follows:—

“The budget for each year and the audited accounts of the preceding year shall be presented to and considered by the University at a meeting convened for the purpose.”

2. The Executive Council as well as the Vice-Chancellor of Bidhan Chandra Krishi Viswavidyalaya recommended removal of the pre-condition relating to submission of the *audited* accounts of the preceding year along with the budget for a year, as prescribed in the sub-section under reference on grounds of practical constraints.

3. Under the present system of accounting and auditing, it is not possible for the University administration to present the *audited* accounts of the preceding year with the budget for each year. The State University Acts framed by the Department of Education for the Universities under its administrative control do not also have any such provision for submission of *audited* accounts along with the budget.

4. It was, therefore, decided by the Government that for the words “and the audited accounts of the preceding year”, the words “and the latest audited accounts” should be substituted so that the University might get rid of the existing practical difficulties and prepare the budget in time.

5. As the amendment was to be given effect to immediately, the Bidhan Chandra Krishi Viswavidyalaya (Amendment) Ordinance, 1985 (West Ben. Ord. XII of 1985) was promulgated on 16th October, 1985 and published in the Official Gazette on 19th October, 1985. The proposed Bill seeks to replace the Ordinance.

NOTIFICATION (1)

No. 485-L.—1st March, 1986.—The Governor having been pleased to order, under rule 66 of the

Rules of Procedure and Conduct of Business in the West Bengal Legislative Assembly, the publication of the following Bill, together with the Statement of Objects and Reasons and the Financial Memorandum which accompany it, in the *Calcutta Gazette*, the Bill, the Statement of Objects and Reasons and the Financial Memorandum are accordingly hereby published for general information:—

Bill No. 4 of 1986

THE WEST BENGAL LOCAL BODIES (ELECTORAL OFFENCES AND MISCELLANEOUS PROVISIONS) (AMENDMENT) BILL, 1986.

A

BILL

to amend the West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) Act, 1952.

WHEREAS it is expedient to amend the West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) Act, 1952, for the purpose and in the manner hereinafter appearing; West Ben. Act X of 1952.

It is hereby enacted in the Thirty-seventh Year of the Republic of India, by the Legislature of West Bengal, as follows:

Short title and commencement.

1. (1) This Act may be called the West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) (Amendment) Act, 1986.

(2) It shall be deemed to have come into force on the 31st day of January, 1986.

The West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) (Amendment) Bill, 1986.

(Clauses 2,3.)

Amendment of section 3 of West Ben. Act X of 1952. 2. In section 3 of the West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) Act, 1952 (hereinafter referred to as the principal Act), for sub-section (1), the following sub-section shall be substituted:—

“(1) No person shall convene, hold or attend any public meeting within any constituency in which a poll is taken for an election in that constituency within 48 hours before the close of the poll.”.

Repeal and saving.

3. (1) The West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) (Amendment) Ordinance, 1986 is hereby repealed.

West Ben. Ord. II of 1986.

(2) Notwithstanding such repeal, anything done or any action taken under the principal Act as amended by the said Ordinance shall be deemed to have been validly done or taken under the principal Act as amended by this Act.

STATEMENT OF OBJECTS AND REASONS.

Sub-section (1) of section 3 of the West Bengal Local Bodies (Electoral Offences and Miscellaneous Provisions) Act, 1952, enjoins that no person shall convene, hold or attend any public meeting within any constituency on the date or dates on which a poll is taken for an election in that constituency. In the case of elections to the Parliamentary and Assembly constituencies, public meetings within 48 hours before the close of the poll are prohibited. On that analogy, in order to provide for peaceful conduct of elections to local bodies, it is necessary that the law should be amended suitably so as to prohibit public meetings within 48 hours before the close of the poll.

The Bill has been framed with the above object in view.

of 1947.

It is hereby enacted in the Thirty-seventh Year of the Republic of India, by the Legislature of West Bengal, as follows :—

STATEMENT OF OBJECTS AND REASONS.

The life of the West Bengal Premises Requisition and Control (Temporary Provisions) Act, 1947 (West Ben. Act V of 1947) is due to expire on the 31st day of March, 1986. The housing problem in the State is still acute and it is difficult to find accommodation for public purposes by private negotiation. It is, therefore, felt necessary that the powers obtained under the Act should be retained for a further period of one year upto the 31st March, 1987.

2. The Bill has been framed with the above object in view.

FINANCIAL MEMORANDUM.

Under clause 2 of the Bill the life of the West Bengal Premises Requisition and Control (Temporary Provisions) Act, 1947 (West Ben. Act V of 1947) is sought to be extended by a further period of one year beyond 31st March, 1986. The Act, by itself, does not entail any financial liability on the State Government. Although the initial responsibility for payment of compensation to the landlords for premises requisitioned under the Act rests on the State Government, the entire cost is ultimately recoverable from the persons in occupation of the requisitioned premises.

West Ben.
Ord. XIII
of 1985.

(2) Notwithstanding such repeal, anything done or any action taken under the principal Act as amended by the Calcutta Hackney-carriage (Amendment) Ordinance, 1985, shall be deemed to have been validly done or taken under the principal Act as amended by this Act.

STATEMENT OF OBJECTS AND REASONS.

Disposal of unlicensed and unclaimed rickshaws seized by police on city streets is badly delayed owing to the statutory constraint of six months' mandatory waiting after the issue of the relevant order of Proclamation as provided under the Code of Criminal Procedure, 1973. A large number of unlicensed rickshaws which are seized under section 70A(1) of the Calcutta Hackney-carriage Act, 1919 and kept in Police Stations remain unclaimed. It is very difficult to accommodate them in the Thanas for want of adequate space. In order to combat the situation, provisions have been proposed in the Calcutta Hackney-carriage (Amendment) Bill, 1986, to ensure speedy disposal of such rickshaws for better traffic management in Calcutta. This Bill seeks to replace the Calcutta Hackney-carriage (Amendment) Ordinance, 1985, promulgated by the Governor and published in the Calcutta Gazette, Extraordinary of the 13th December, 1985.

ment.

STATEMENT OF OBJECTS AND REASONS.

Section 21B of the Bengal Municipal Act, 1932 enjoins that a person registered in the electoral roll for a municipality shall not be entitled to be registered in the electoral roll for any other municipality, Municipal Corporation or *Panchayat* area. PART IV.—Bills introduced in the West Bengal Legislative Assembly; Reports of Select Committees presented or to be presented to that Assembly; and Bills published before introduction in that Assembly.

GOVERNMENT OF WEST BENGAL

LEGISLATIVE DEPARTMENT

NOTIFICATION

No. 550-L.—14th March, 1986.—The Governor having been pleased to order, under rule 66 of the

Rules of Procedure and Conduct of Business in the West Bengal Legislative Assembly, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information :—

Bill No. 11 of 1986

THE WEST BENGAL LAND REFORMS (SECOND AMENDMENT) BILL, 1986.

A

BILL

to amend the West Bengal Land Reforms Act, 1955.

WHEREAS it is expedient to amend the West Bengal Land Reforms Act, 1955, for the purposes and in the manner hereinafter appearing ;

West Ben.
Act X of
1956.

It is hereby enacted in the Thirty-seventh Year of the Republic of India, by the Legislature of West Bengal, as follows :—

Short title

1. This Act may be called the West Bengal Land Reforms (Second Amendment) Act, 1986.

Amendment of
section 2
of West
Ben. Act
X of 1956.

2. In section 2 of the West Bengal Land Reforms Act, 1955 (hereinafter referred to as the principal Act), after clause (12), the following clause shall be added and shall be deemed to have been added with effect from the 31st day of July, 1965 :—

“(13) “Scheduled Tribe” shall have the same meaning as in clause (25) of article 366 of the Constitution of India.”

*The West Bengal Land Reforms (Second Amendment)
Bill, 1986.*

(Clause 3.)

Insertion
of new
section
14HH.

3. After section 14H of the principal Act, the following section shall be inserted :—

“Setting aside of sale of land of a *raiyat* belonging to a Scheduled Tribe. 14HH. Notwithstanding anything to the contrary contained in the Code of Civil procedure, 1908 or in any other law for the time being in force, every court exercising appellate or revisional jurisdiction shall, either of its own motion or on an application made in this behalf, set aside the sale of land of a *raiyat* belonging to a Scheduled Tribe or any portion of such land in execution of a decree in favour of a person not belonging to a Scheduled Tribe, notwithstanding the failure of the party to file any objection before the court which passed the decree or passed any order for execution of the decree.” 5 of 1908.

STATEMENT OF OBJECTS AND REASONS.

Under section 14F of the West Bengal Land Reforms Act, 1955, no decree or order shall be passed by any court for the sale of the holding or any portion thereof, of a *raiyat* belonging to a Scheduled Tribe nor shall any such holding be sold in execution of any decree or order.

This protection has not materialised in practice because of varying interpretations of the courts of law. The Patna High Court and the Orissa High Court have held that such protection cannot be invoked by a party which has failed to invoke it in an earlier stage of the proceedings.

The provisions of section 14F of the West Bengal Land Reforms Act, 1955, are almost similar to those of the corresponding Act of the Bihar Government. In view of different interpretations of the courts of law, it is likely that the provisions of section 14F of the West Bengal Land Reforms Act, 1955, may not be adequate enough to reflect the intention of the law.

To do away with the lacuna, it is felt necessary that the West Bengal Land Reforms Act, 1955, should be amended suitably so that a person belonging to a Scheduled Tribe may be competent to move any court exercising appellate or revisional jurisdiction to set aside the sale of the holding in execution of a decree in cases where the sale is in favour of a person not belonging to a Scheduled Tribe.

The Bill has been framed with the above object in view.

NOTIFICATION**

No. 552-L.—15th March, 1986.—The Governor having been pleased to order, under rule 66 of the Rules of Procedure and Conduct of Business in the

West Bengal Legislative Assembly, the publication of the following Bill, together with the Statement of Objects and Reasons and the Financial Memorandum which accompany it, in the *Calcutta Gazette*, the Bill, the Statement of Objects and Reasons and the Financial Memorandum are accordingly hereby published for general information:—

Bill No. 12 of 1986

**THE RABINDRA BHARATI (AMENDMENT)
BILL, 1986.**

A

BILL

to amend the Rabindra Bharati Act, 1981.

WHEREAS it is expedient to amend the Rabindra Bharati Act, 1981, for the purpose and in the manner hereinafter appearing;

West Ben.
Act
XXXVI
of 1981.

It is hereby enacted in the Thirty-seventh Year of the Republic of India, by the Legislature of West Bengal, as follows:—

Short title
and
commen-
cement.

1. (1) This Act may be called the Rabindra Bharati (Amendment) Act, 1986.

(2) It shall be deemed to have come into force on the 18th day of October, 1985.

*The Rabindra Bharati (Amendment) Bill, 1986.**(Clauses 2, 3.)*

Amend-
ment of
section 55
of West
Ben. Act
XXXVI of
1981.

2. In section 55 of the Rabindra Bharati Act, 1981 (hereinafter referred to as the principal Act), in sub-section (4),—

(a) in clause (a), for the words “not exceeding two years”, the words “not exceeding two years and three months” shall be substituted and shall be deemed always to have been substituted, and

(b) in clause (b), for the words “not exceeding two years”, the words “not exceeding two years and three months” shall be substituted and shall be deemed always to have been substituted.

Repeal
and
saving.

3. (1) The Rabindra Bharati (Amendment) Ordinance, 1985 is hereby repealed.

West Ben.
Ord. XI of
1985.

(2) Notwithstanding such repeal, anything done or any action taken under the principal Act as amended by the Rabindra Bharati (Amendment) Ordinance, 1985 shall be deemed to have been validly done or taken under the principal Act as amended by this Act.

STATEMENT OF OBJECTS AND REASONS.

While the term of office of the Vice-Chancellor of Rabindra Bharati, appointed under the transitory provisions of the Rabindra Bharati Act, 1981 (West Ben. Act XXXVI of 1981), was due to expire on the 25th October, 1985, the constitution of different bodies of the University and the revision or amendment of the Statutes, the Ordinances and the Regulations with the approval of the Chancellor were yet to be completed. It was, therefore, considered necessary that the term of office of the Vice-Chancellor should be extended for a period of three months by promulgation of an Ordinance.

As the matter was urgent and as the Legislative Assembly was not in session, an Ordinance, namely, the Rabindra Bharati (Amendment) Ordinance, 1985 (West Ben. Ord. XI of 1985), was promulgated to achieve the purpose.

The Bill seeks to continue the provisions of the said Ordinance.

West Ben.
Ord. III of
1986.

(2) Notwithstanding such repeal, anything done or any action taken under the said Ordinance shall be deemed to have been validly done or taken under this Act.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to acquire the Lowis Jubilee Sanitarium, Darjeeling, a large tourist accommodation unit established in 1887.

In 1976 after careful examination it was concluded that the establishment was suffering due to inadequate management. Accordingly, the West Bengal Legislative Assembly enacted the Lowis Jubilee Sanitarium (Taking over of Management) Act, 1976, and the Government of West Bengal took over management of the institution for a period of 10 years by virtue of the statute.

It was possible to restore the health of the unit, and this proved beneficial to large number of tourists visiting Darjeeling.

The Government felt that reversion of the establishment to the old management at the end of the 10-year period of management take-over would mean that it would slide back to the earlier situation of inadequate management, and that the effect of the restorative measures including the investment made by the Government would be lost. It was, therefore, decided to acquire the Sanitarium to cater for the low-budget and middle-budget tourists to Darjeeling.

As the management take-over period expired on the 15th February, 1986, and as the Legislature was not in session, the Governor promulgated the Lowis Jubilee Sanitarium (Acquisition) Ordinance, 1986. The present Bill seeks to replace the Ordinance and has the same provisions, except that the protection of the interest of the employees has been more expressly and adequately mentioned, and that no compensation shall be paid for the acquisition has been expressly mentioned.

FINANCIAL MEMORANDUM.

The annual recurring expenditure on account of payment of salaries of the staff and other expenditure for operation of the Lowis Jubilee Sanitarium will be around Rs. 6,55,000 (Rupees Six Lakhs Fifty-five Thousand) only. It is proposed to provide for this expenditure from within the allocation in the Revenue Budget for Tourism Department. It has been estimated that the earnings from the establishment will be not less than what would be spent on it.

Principles to be followed in the matter of confirmation and promotion of Group 'C' and Group 'D' employees

The Board has been pleased to decide, in supersession of previous orders, that confirmation, selection and promotion to higher Group 'C' and Group 'D' services or posts shall be on the basis of seniority, and not on the basis of their Annual Confidential Reports, except in the case of an employee—

(a) against whom—

- (i) charges have been established through departmental proceeding;
- (ii) departmental proceedings are going on;
- (iii) a criminal case involving moral turpitude is pending in a court of law;
- (iv) charges of corruption are under investigation and in respect of whom the Head of the Department/Appointing Authority comes to a decision on the basis of reports available that there is a prima facie case for instituting departmental proceedings for a criminal case. In such a case, however, one promotion post should be kept reserved for the employee so that he can be given the promotion if such departmental proceedings/criminal case is not instituted within three months from the date of promotion of his juniors and further when the question of substantive appointment arises, such an employee should be given preference over persons who were junior to him; or

(b) who has got such physical or mental deformity as to seriously impair his efficiency.

2. The above principles would apply mutatis mutandis, also to appointments to Selection Grades in Group 'C' and Group 'D' Services and posts.

3. Where the regulations for recruitment to Group 'C' and Group 'D' Services or posts require the passing of any academic, departmental or other examinations for confirmation, selection or promotion to any Group 'C' and Group 'D' Services or posts. These principles shall not be construed to relax any such requirement.

APPENDIX III

Performance Report relating to employees

The Board have been pleased to prescribe the following procedure for the writing of Performance Reports of the Group 'C' and Group 'D' employees:—

- (a) The existing system of Annual Confidential Reports will be replaced by a system of Open Performance Reports.
- (b) The Open Performance Reports will be written six monthly commencing from the 1st January, 1986.

(c) The Open Performance Report will contain factual information regarding—

(i) **Regularity in attendance:** This will cover both punctuality and regularity. Attendance will include attendance to duty, work/work place in cases where under any exceptional circumstances signing of attendance register regularly is not possible. In such cases the Supervising or Controlling Officer, as the case may be, will devise procedure for record of attendance to duty/work/work place.

Note : Absence on leave for Trade Union work by the office-bearers of Federative Bodies/Associations/Unions of the Officers duly communicated by the concerned Trade Union should not be regarded as irregularity in attendance or absence.

(ii) **Performance of duty:** The nature of the report will depend on the nature of the job and the Heads of units will evolve their own points on the basis of the form here to annexed which would give a clear objective assessment of work. Subjective assessment should be totally avoided.

(d) The first copy of the report will be shown to the concerned employee, his signature taken, and the employee will be allowed scope of representation within 30 days from the date on which the employee will be intimated about the report.

Any employee desiring to represent anything regarding the report concerning him shall do so in writing to the officer next higher to the Reporting Officer and the final decision on the representation will be taken by the Head of the Unit after obtaining the comments of the Reporting Officer and he will countersign the report only after his final decision on the representation. The Head of the Unit may also allow personal hearing, if so asked for, by the representing employee in his written representation.

The final decision of the Head of the Unit should also be communicated to the employee.

Where the Head of the Unit in respect of the employee is the Reporting Officer, the final decision will be taken by the next higher authority.

The report will be written in Bengali.

2. The Board have been further pleased to decide that the principle of seniority as laid down in the Hooghly River Bridge Commissioners (Determination of Seniority) Regulations, 1985 will continue to operate in general in respect of all matters referred to therein and departure from the same may be made in matters of promotion in cases where on the basis of the six monthly reports it is found that in respect of either or both the attendance and performance, the concerned employee is not discharging his duties even at the qualifying minimum level. For this purpose the authorities will consider maximum of five such six monthly reports.

3. The Open Performance Report of the employees will generally be in the form hereto annexed. The Head of the Units will make suitable changes in the form depending on the nature of work done by a particular category of employees.

4. These regulations in Appendix III will not apply to members of services or posts in Group 'A' and 'B'.

which provides board and/or lodging at Scheduled Tariffs.

Note 1 : Daily allowance for only staying in hotel etc., will be admissible at the respective rates for the concerned locality as shown in regulation 21 reduced by 10% thereof and in addition the lodging charges (exclusive of breakfast|meals) incurred by the employee for each calendar day subject to the condition that total daily allowance so calculated per day does not exceed the rates laid down in regulation 22 for that locality. }

Note 2 : On day(s) when the employee on tour is provided with free board and lodging at the expense of the Central or State Government or a Public Sector Undertaking or Corporation or a statutory body or a local authority in which Government funds have been invested or in which the Hooghly River Bridge Commissioners have any other interest, he will draw only $\frac{1}{2}$ D.A. for that(those) day(s). If he is provided with only free board he will draw $\frac{1}{2}$ D.A. for that(those) day(s). If he is provided with only free lodging he will draw $\frac{1}{2}$ D.A. for that(those) day(s). The reduction has to be effected from the D.A. relatable to halt at an outstation.

Note 3.1 : The rates of daily allowance prescribed in regulation 11 will apply only in those cases where the Hooghly River Bridge Commissioners employee makes his own arrangement or is provided with accommodation in Hooghly River Bridge Commissioners or Public Sector Guest House|Dak Bungalow at concessional rate. Where an employee stays only in Government or Public Sector Guest House|Dak Bangalows where rates charged are not concessional and pay lodging charges in excess of 25% of daily allowance admissible to them in the concerned localities under regulation 17, daily allowance shall be regulated as under :—

- (i) The respective rate of daily allowance for the concerned localities as shown in regulation 17 shall be reduced by 25% and the lodging charges (exclusive of breakfast|meals) paid by the Hooghly River Bridge Commissioners employee to the Government|Public Sector| Guest House authority for each calendar day shall be added thereto.
- (ii) Daily allowance equal to the amount calculated in (i) above shall be admissible to the Hooghly River Bridge Commissioners employee concerned subject to the condition that where it exceeds the hotel rate to which the Hooghly River Bridge Commissioners employee is entitled to for the respective locality as per regulation 18 it shall be restricted to the latter rate.

Note 3.2 : No certificate is required to the effect that the rates charged from the Hooghly River Bridge Commissioners employees for staying in Government|Public Sector Guest Houses|Dak Bangalows are not concessional.

Note 4.1 : For the time spent in journey, only ordinary rate of daily allowance as in regulation 17 will be admissible. When total absence from headquarters is spent in journeys partly in ordinary locality and partly in expensive locality, the total number of daily allowance will first be calculated from this, the number of daily allowance for halt in the expensive locality, for which daily allowance at the specified rates will be allowed, will be deducted. The remaining number of daily allowance will then be calculated at ordinary rates.

Note 4.2. : For the time spent in transit, only the ordinary rate of daily allowance will be admissible irrespective of whether the journey is to an expensive locality for which special rate of D.A. is admissible or not.

Note 5 : The terms "Scheduled Tariff" as contained in regulation 22 shall mean 'Hotel Rates' of daily allowance if an employee stays in any establishment registered|licensed as a 'Hotel'.

Note 6 : No daily allowance will be admissible for Sundays and holidays unless the employee is actually and not merely constructively in Camp. He has to perform public duties just before and after Sundays|holidays in order to be eligible to draw D.A. for such Sundays and holidays. For this purpose, it is enough if the employee spends at least a portion of the particular Sundays|holidays in Camp. Thus an employee may leave his place of halt on a Sunday or holiday in the morning, go to any distant place in a private purpose and return to his halting place in the evening and he will still be considered to be actually in Camp for the purpose of eligibility to daily allowance. No allowance will be admissible for Sectional holidays and leave including casual leave availed off while on tour.

Note 7 : An employee travelling in localities outside West Bengal shall be entitled to draw daily allowance at the rates prescribed by the Central Government from time to time for the said localities for employees under their control of the identical pay ranges.

19. The admissibility of daily allowance at a place outside an employee's headquarters shall be as follows :—

- (i) (a) First 30 days—Full daily allowance.
- (b) Beyond 30 days and up to 180 days—Half daily allowance.
- (c) Beyond 180 days—Nil.

Note : The authority competent to sanction tour shall also have the power to sanction daily allowance beyond 30 days.

- (ii) For local journeys (i.e., those beyond 8 kilometres within the same and/or contiguous municipality, etc. in which the headquarters of the employee is located) an employee will hereafter draw, for journey involved mileage allowance without incidentals and will in addition draw 50 per cent of daily allowance calculated at the rates laid down in regulation 16 irrespective of whether the journey is performed by the employee from his residence or from the normal place of his duty. Journeys within the limits of an urban agglomeration within which an employee's headquarters are located will also be treated as local journeys.

20. Saving.—Notwithstanding the above, wherever the rate of daily allowance admissible under these regulations will be less than the rates in force prior to the commencement of these regulations, the daily allowance at the previous rates may be drawn.

21. Distance to be travelled before allowance is admissible.—No allowance may be drawn for any day on which employee does not reach a point outside a radius of 8 Km. from his headquarters or return to his headquarters from a similar point even though the distance travelled over may be more than 8 Km.

Note 1 : This regulation applies to cases where an employee comes to a halt without reaching a distance exceeding 8 Km. from headquarters. But it does not apply when the journey is conceived without interruption to a point more than 8 Km. distance from headquarters, even though at midnight of the day on which he started he has not yet reached such a point.

Note 2 : An employee who, on completing a road journey of less than 8 Km. from headquarters, returns thereto and then commences a journey by rail of more than 8 Km. from headquarters on the same day, is not entitled to any allowance for the first portion of his journey by road.

Note 3 : In cases where a place is less in a straight line than 8 Km. from headquarters, but more than 8 Km. by the only practicable route to it, travelling allowance may be admitted by that route, but the allowance cannot be granted simply on the ground that the journey, exceeding 8 Km. was performed in visiting several places none of which was more than 8 Km. from headquarters by the ordinary direct route.

Examples: (1) As the shortest route between the Bengal Engineering College, Shibpur and Calcutta is less than 8 Km. no travelling allowance other than ferry tolls is admissible for the journey.

(2) As the distance between Calcutta and the Belgachia College and Hospital, by the shortest route, is less than 8 Km. no travelling allowance is admissible for such journeys.

22. Hired conveyance.—For any day on which a member of clerical staff or graded employee is required in writing by the head of his office to travel by public or hired conveyance of a stated kind, he may, subject to any conditions, which the head of the office may by general or special order impose, draw allowance for the distance travelled.

Note : The term "hired conveyance" includes a bullock-cart in localities where such is an ordinary means of conveyance.

23. Ferry charges, tolls, railway fare, taxi hires, etc.—An employee travelling on duty within 8 km. of his headquarters is entitled to recover the actual amount which he may spend in payment of ferry and other tolls and fares for journeys by railway or other public conveyance.

- (5) A certificate should be furnished that no staff car is available.

(2) In case of difficulty to secure certificates as regards rental value of houses from the Calcutta Corporation, the rental value of a building situated within the jurisdiction of the Calcutta Corporation may, however, be determined from the tax bills issued by the said Corporation, which inter alia includes annual valuation of the building. This annual valuation represents the gross annual rent including some charges, if any, at which such building might at the time of assessment be reasonably expected to let less an allowance of 10% [vide section 174(I) of the Calcutta Municipal Corporation Act, 1980 (West Bengal Act, LIX of 1980.)].

(3) Where necessary, employees living in such buildings, may be asked to furnish certificates showing the calculations of rental value of the premises together with a copy of the bill issued by the Calcutta Corporation. 5. The Board may delegate powers to administrative officers. In the exigencies of timely completion of the Project certain powers have been delegated to competent authority pending approval of Govt. under suitable regulations. These have been shown in Appendix 1.

CHAPTER II

Duties and function of the Section under the Financial Adviser and Chief Accounts Officer

6. All transactions to which any officer of the Board is a party in his official capacity must be brought to accounts without delay.

7. All moneys received by or on behalf of the Board either as dues of Board or for deposit, remittance or otherwise shall be brought into Board Accounts without delay.

8. The controlling officer shall arrange to verify that all sums due to Board are regularly received and checked against demands and they are paid into the Board's Accounts and compare with those figures recorder in the books of the Pay and Accounts officers.

9. The surplus cash balance shall be invested in such manner as may be determined by the Board.

Security Deposit

10. Subject to special regulations or order made by the Board in this behalf, every employee such as cashier, assistant cashier, store keeper and other subordinate, who is entrusted with custody of cash or stores should be required to furnish security the amount being regulated according to circumstances and local conditions in each case under the sanction of C.P.M./V.C. Board with the concurrence of Financial Adviser and Chief Accounts Officer and to execute a Security Bond setting forth the conditions under which the Board will hold the security and may ultimately refund or appropriate it.

Note 1 : The amount of security deposit should be equivalent to 10 per cent in excess of the maximum amount of cash or the maximum value of stores likely to be in the custody of the employee at any one time. In special cases where the application of the principle may cause hardship the competent authority may, for reasons to be recorded in writing, reduce the amount of security as far as he thinks necessary.

Note 2 : The cashier or the assistant cashier handling the cash shall have to furnish security of Rs. 1,500 of which Rs. 500 shall be covered by cash and Rs. 1,000 by a fidelity bond (Vide Appendix 2).

However instead of execution of a fidelity bond for Rs. 1,000 a cash deduction of Rs. 30 P.M. from the cashier/assistant cashier may be deducted in instalments and the fidelity bond may have to be maintained until the entire security money of Rs. 1,000 is recovered. The Officer-in charge will be responsible for seeing that the fidelity bonds which expire before the full amount of security has been recovered by deductions from pay or renewed in good time so as to cover the outstanding amount.

Note 3 : The amount of the security money to be deposited by the store keeper shall be determined by the Chief Project Manager in accordance with the existing rules/norms of the State Government.

Note 4 : Double lock system should be provided, whether possible.

11. A register of Security Deposits shall be maintained in all offices to watch the receipt and disposal of security deposits including interest-bearing securities in the forms set forth in Appendix 3.

Note 1 : In this register should be inserted in index in the following form :

PART 1

Name of Officer liable to give security.	Amount.	Number of pages in the register.
1	2	3

Sufficient space will be left in this part for the addition of fresh names from year to year.

The register and index will be in the charge of the Head of Office who will certify each year that the register is complete and that the name of every officer to give security has been entered in the register, whether he has given security or not. The certificate will form part II of the index, and will be in the following form :

Year	Name of Head or Office or in charge	Signature and date in token of verification of complete- ness of register.
1	2	3

When filling in the certificate, the Head of Office will also initial and date the last entry in part 1 of the Index.

12. Whenever a private person or firm contracts with the Board to supply stores or execute a work, he or it should, unless exempted by the Chief Project Manager or any other competent authority, be required to give security for the due fulfilment of the contract and suitable provisions regarding the security should be incorporated in the agreement.

13. Subject to the provisions of regulation 14, the security taken from an employee not covered by the notes below regulation 10 or from a contractor shall be in one of the following forms subject to the conditions noted against each, or partly in one and partly in another of these forms when this is specially permitted by the departmental authority authorised to accept the security :—

Forms	Conditions
(i) Cash	.. Board will not pay any interest on any deposit held in the form of cash. (These securities shall be accepted at five per cent below their market price or at their face value, whichever is less.)
(ii) Fidelity Bonds of Life Insurance Corporation of India :..	A fidelity bond may be accepted as security from an employee but not from a private party. When an employee has furnished security in the form of fidelity bond, the departmental authority authorised to accept security shall see that the employee pays premia necessary to keep it alive on the due dates and continues to do so until he vacates his office. If the employee fails to submit the premium receipts in time, he shall not be allowed to perform the duties of his post and dealt with in accordance with the terms of his appointment.

14. Cash actually received or recovered may be converted into an interest bearing form of security even when it forms part of a deposit which is being paid in instalments and has not yet been realised in full.

Note : Percentage deductions made from a contractor's bill held as security for the due fulfilment of a contract should not be converted into any other forms of security unless there is special regulation or order for such conversion.

15. Subject to any regulation or order made by the Board in this behalf, the form of the security bond to be executed at the time of furnishing security should be determined under legal advice and in consultation with the Financial Adviser and Chief Accounts Officer. When an officer is specially permitted to furnish security partly in one and partly in another of the forms of security specified in regulation 13 he should execute separate bonds for the different kinds of security.

16. Post Office Saving Bank Pass Books, deposit receipts of banks, fidelity bonds and security bonds or agreements should be kept in the safe custody of the departmental authority which takes the security but in the absence of sufficient security agreements in the office of the departmental authority the aforesaid documents may be sent by such authority as may be prescribed by the competent authority.

17. A security deposit taken from an officer should be retained for at least six months from the date when he vacates his post, but a security bond should be retained permanently or until it is certain that there is no further necessity for keeping it.

18. No security deposit should be repaid or retransferred to the depositor, or otherwise disposed of, except in accordance with the terms of his security bond or agreement. A departmental authority on returning any security to the depositor should invariably obtain his acknowledgement duly signed and witnessed. When an interest bearing security is returned or retransferred, the acknowledgement should set forth full particulars of the security.

19. The security deposit of a contractor, comprised wholly of earnest money retained after the acceptance of his tender or of percentage deductions from subsequent bill for work done, or partly of the former and partly of the latter, shall not be refunded till the final bill for the relative work has been prepared and passed.

Essential conditions governing expenditure from HRBC funds

20. As a general rule no authority may incur expenditure or enter in any liability involving expenditure from HRBC funds until the expenditure has been sanctioned by general or special orders of the Competent Authority to which power has been duly delegated in this behalf and the expenditure has been provided for in the authorised budget grants and appropriations for the year.

Standards of financial propriety

21. Every officer incurring or authorising expenditure from HRBC funds should be guided by high standards of financial propriety. Among the principles on which emphasis is generally laid are the following :—

- (i) Every public officer is expected to exercise the same vigilance in respect of expenditure incurred from public moneys as a person of ordinary prudence would exercise in respect of expenditure of his own money.
- (ii) The expenditure should not be prima facie more than the occasion demands.
- (iii) No authority should exercise its powers of sanctioning expenditure to pass an order which will be directly or indirectly to its own advantages.
- (iv) Public moneys should not be utilised for the benefit of a particular person or section of the community unless—
 - (1) the amount of expenditure involved is insignificant,
 - (2) a claim for the amount could be enforced in a court of law, or
 - (3) the expenditure is in pursuance of a recognised policy or custom.
- (v) The amount of allowances granted to meet expenditure of a particular type should be so regulated that the allowances are not on the whole a source of profit to the recipients.

Control of expenditure

22. Head of a department along with Controlling Officer is responsible for enforcing financial order and strict economy at every step. He is responsible for observance of all relevant financial rules and regulations both by his own office and by subordinate disbursing officers.

23. A controlling officer must see not only that the total expenditure is kept within the limits of the authorised appropriation but also that the funds allotted to spending units are expended in the public interest and upon objects for which the money was provided. In order to maintain a proper control, he should arrange to be kept informed, not only of what has actually been spent from an appropriation but also what commitments and liabilities have been and will be incurred against it.

Internal check against irregularities, waste and fraud

24. In the discharge of his ultimate responsibilities for the administration of an appropriation or part of an appropriation placed at his disposal, every officer incurring or authorising expenditure from HRBC fund must satisfy himself not only that adequate provisions exist within the departmental organisation for systematic internal checks calculated to prevent and detect errors and irregularities in the financial proceedings of his subordinate officers and to guard against waste and loss of public money and stores, but also that the prescribed checks are effectively applied.

Defalcations, Losses, etc., reports of losses

25. Any loss of public money, departmental revenue of receipts, stamps stores or other property held by or on behalf of the Board, caused by defalcation or otherwise, which is discovered in office or department, should be immediately reported by the officer concerned to his immediate superior officer even when such loss has been made good by the party responsible for it. Such reports must be submitted as soon as a suspicion arises that there has been a loss and they must not be delayed while detailed enquiries are made. When the matter has been fully investigated, a further and complete report should be submitted of the nature and extent of the loss showing the errors or neglect of regulations by which such loss was rendered possible, and the prospects of effecting a recovery.

Responsibility for losses, etc.

26. Every officer should realise fully and clearly that he will be held personally responsible for any loss sustained by the Board through fraud or negligence on his part and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other officer to the extent to which it may be shown that he contributed to the loss by his own action or negligence. Detailed instructions for regulating the enforcement of such responsibility are embodied in Appendix 4.

Responsibility for overcharges

27. (a) A drawer of pay abstracts or bills for pay, allowances, or contingent expenses will be primarily held responsible for any overcharge.

(b) The responsibility of the countersigning officers will be that which attaches to all controlling officers and which brings them under liability to make good any loss arising from their culpable negligence.

28. The Chief Project Manager or any officer authorised by the Board shall exercise a concurrent control over the duties of the officers of the departments in connection with the maintenance of the accounts and give all legitimate support to the Accounts Officers in enforcing strict attention to the regulations concerning the disbursement of money, the custody of stores and submission of accounts.

29. Subject to such general or specific directions as may be given by the Board, detailed accounts of individual loan and advances will be maintained by an officer authorised by F.A. and C.A.O. who will arrange for watching their recovery and see that the conditions attached to each loan or advances are fulfilled.

Imprest Advance

30. Advances are granted to employees who may have to meet certain classes of expenditure before they can place themselves in funds by drawing bills. They are subject to the following conditions :—

- (1) The amount is fixed by the Vice-Chairman and/or Controlling Officers with the concurrence of F.A. & C.A.O. except in cases falling under clause (2).
 - (2) Controlling Officer can sanction the grant of imprest advances for office subordinate to them up to the amount advised by the Financial Adviser and Chief Accounts Officer as appropriate.
 - (3) Applications for the grant or revision of an imprest advance must be submitted to the sanctioning authority who will determine in consultation with the concurrence of F.A. & C.A.O. the appropriate amount of the imprest. In cases falling under clause (2) above if there is any difference of opinion between the F.A. & C.A.O. and the sanctioning authority on this point, the matter should be referred for the orders of Vice-Chairman or Board.
 - (4) As these advances involve the retention of money outside the general fund they must not be larger than is absolutely essential.
 - (5) These advances should not be multiplied unnecessarily. An officer's advance should meet the needs of every branch of his office. If he has subordinates who require petty sums he should rather spare a small portion of his own advance for their use than apply for separate advances for them, taking acknowledgement from them.
 - (6) The advance is intended to provide on the responsibility of the employee entrusted with it for emergent petty advance for all kinds.
- All petty items of expenditure up to Rs. 20 may be paid out of this advance on the basis of the pay order of the authorised officer encased on the bill itself.
- (7) In the case of transfer of charges and yearly on the 15th April, each officer holding an imprest advance must send an acknowledgement in F.R. Form No. 2 (Appendix 5) to the F.A. & C.A.O. of the amount due from and accountable for by himself.

CHAPTER III

Stores

Receipt of stores

32. All materials received should be examined, counted, measured or weighed, as the case may be, when delivery is taken, and they should be taken charge of by a responsible officer who should see that the quantities are correct and their quality good, and record a certificate to that effect. The officer receiving the stores should also be required to give a certificate that he has actually received the materials and recorded them in the appropriate stock register.

Endorsement of stock certificates on freight bills

33. Before freight bills for movement of commodities are passed for payment stock holding officers shall endorse a stock certificate in the following form on the said bills :

"Certified that the stock noted below have been received and have duly been accounted for in the stock register and that suitable records have been kept to avoid double payments.

(1)	(2)	(3)	(4)	(5)
Prog. No. with date	Invoice No. with date	Boat/Flat/ Bargo/ Conveyance No.	Quantity received in bags and weight	Condition of stock

Issue of stores

34. When materials are issued from stock for departmental use, manufacture or sale, etc., the **Officer-in-Charge of the stores** should see that a requisition or indent in proper form (Appendix 6) has been made by a properly authorised person, examine it carefully with reference to any orders or rules for the issue of stores and sign it after making suitable alterations under his dated initials, in the description and quantity of materials, if he is unable to comply with the requisition officer in full. When materials are issued, a written acknowledgement should be obtained from the person to whom they are ordered to be delivered or despatched, or from a duly authorised agent.

Transfer of charges of stores

35. In cases of transfers, the officer-in-charge of stores should see that the stores in his custody are made over correctly to his successor and a proper receipt taken from him.

Every departmental officer is bound to take over charge of departmental store which, from the death or departure of the person lately in charge or from any other cause, may be left at or near his station without adequate protection.

Custody of stores

36. The Joint Project Manager entrusted with stores of any kind should take special care for arranging for their safe custody, for keeping them in good and efficient condition and for protecting them from loss, damage or deterioration. One Assistant Project Manager will directly handle the stores who would be assisted by a Sub-Assistant Project Manager and a Store-keeper in his day to day affair in handling the stores. Store-keeper would be directly responsible for stores and Sub-Assistant Project Manager will be directly responsible for keeping day to day accounts of stores (both issue and receipt of materials). Suitable accommodation should be provided more particularly for valuable and combustible stores. Joint Project Manager should see that accounts and inventories, correct returns in respect of the stores in his charge are maintained with a view to preventing losses through theft, accident, fraud or otherwise and to making it possible at any time to check the actual balances with the book balances and the payment to suppliers, etc.

Note : Detailed procedures for the maintenance, etc. of inventories of stores and stocks are contained in Appendix 7.

Stock Accounts

37. The Accounts are of two kinds (a) Quantity Accounts and (b) Value Accounts.

(a) Quantity Accounts

All quantities received in or issued from stores should be entered in the Stock Accounts under the respective heads on the dates the transactions take place, and balances struck every month which should record the quantities in stock at the close of each month.

(b) Value Accounts

The Value Accounts should show the money value of the materials received in and issued from stock. The value of all materials obtained from different sources, either by cash payment or by book adjustment, should therefore be entered on the payment side. Receipt side should show the value of materials issued from time to time at rates which should be previously fixed by competent authorities after taking into account in addition to the original price, the cost of carriage and other incidental charges, if any, actually incurred on the acquisition of stores. (Vide regulation 40.)

A general valuation should also be made of the stock in hand at the close of each half-year at reasonable accurate prices not exceeding the market rates which should be reviewed from time to time and revised when necessary and then entered on the receipt side. The difference between the totals of the two columns will ordinarily show profit or loss in the operation of different classes of materials. This will enable the authorities to read just the issue prices, where necessary.

Stock-taking

38. The balance in stock should be half-yearly examined to see whether the balance in hand represents the quantities as well as the value borne on the account book. Any discrepancy discovered in the verification should be fully explained and the book balance set right under orders of the competent authority.

Value Accounts

39. (a) **Payment of stock received :** Bills of suppliers should, before payment, be carefully examined.

Note : To prevent erroneous or double claims being put forward successfully, store-keeper and sectional officers may, if desired, be required to verify suppliers' bills before payment but the disbursing officer should ensure that no payment is made unless the precautions referred to above have been observed.

(b) **Recoveries for stock issued :** An Issue Rate is assigned to each new article as it is brought on stock. This rate to be finalised by Project Manager with the approval of Financial Adviser on the principle that the cost to be charged to works on which the materials are to be used should approximately equal the actual cost of the stores and that there may be no ultimate profit or loss in the stock accounts. It should provide, beyond the original price paid, for carriage and other incidental charges, if any, actually incurred on the acquisition of stores.

Note 1 : It is not necessary that the Issue Rate for an item should be the same in all subdivisions, but an uniform rate should ordinarily be prescribed for all localities in a Sub-Office.

Note 2 : The Issue Rate should be worked out to the nearest five paise, as far as possible.

Sale and write-off of stores

40. All articles of stock (not including tools and plant), which are not likely to be required during the following twelve months, should be reported by Assistant Project Manager to the Jt. Project Manager who will, if necessary, take the Project Manager's orders as to their disposal.

41. When stock materials are sold to the public or to other departments, an addition of 10 per cent must be made to cover such charges on account of supervision, storage, and contingencies as are not provided for in the rates fixed under regulation 39. This addition may, however, be waived by the officer empowered to sanction the sale in the case of surplus stock which in his opinion, would otherwise be unsaleable.

42. Except as provided in regulation 41, no public stores may be sold otherwise than by public auction, without the permission of the Chief Project Manager, which should not ordinarily exceed 5 per cent, may be allowed to the auctioneer, not being a departmental subordinate, but no commission can be allowed on private sales.

Note : When stores are sold by auction, a responsible officer or subordinate should attend and record the final bids in order to enable the sale accounts rendered by the auctioneer to be checked.

43. When stores of any kind become unserviceable, a report thereof should be made in F.R. Form No. 3A (Appendix 8). This should be done at once on discovery of the fact.

44. All losses of stock should be immediately investigated and steps taken to obtain the sanction of competent authority to their write-off, if necessary. (See also regulations 25)

Note : In the case of serious losses, the Chief Project Manager should arrange to hold a departmental enquiry and record the evidence and his findings thereon, including the finding as regards the responsibility and culpability of the persons concerned.

Stock-taking

45. Jt. Project Managers are to have stock taken at least once a year. Important stores should be counted by a member of Engineering establishment, but this duty may be entrusted to a subordinate holding the charge of a subdivision. The Project Manager when he thinks proper, may depute an officer in the stock taking of another. As a general rule, verification should be entrusted to an officer independent of and unconnected with the staff responsible for the custody of the stores, and it should also include a certain amount of surprise check. When the stocks of an article are scattered it may not be possible to test the aggregate book balance of any article by an actual verification of all the stocks of it at the same time. In such cases, the various stocks of each article should as far as possible be verified at or about the same time.

46. The procedure of verification outlined in the foregoing regulations is suitable primarily for divisions executing ordinary works. In the cases of stores, where there may be a large concentration of materials a continuous and periodical verification of stores should be arranged for, whenever possible.

47. The results of all verifications of stock should be reported to the Project Manager for orders, but, as soon as a discrepancy is noticed, the book-balance must be set right by the verifying officer with a suitable remark.

48. Contractors' bills may be prepared by the respective Head of Office of the unit after the measurements are entered and the contents or areas calculated and recorded in the measurement book. The bill together with the measurement book should then be sent to the Head of Office for his scrutiny and check. The entries in the measurement book relating to description and quantities of work or supplies should be scrutinized by the Assistant Project Manager. The rates allowed both in the abstract of measurements and the bill itself should be checked by the Sub-divisional Officer. Full rates as per agreement, catalogue, indent or other should be allowed only if the quality of work done or supplies made is up to the stipulated specifications.

49. When the work or supplies fall short of that standard and under the agreement it is permissible to make a final payment if the contract is determined, or an on account payment if the contract is to run on and/or if payment is made for an item of work which is not complete at the time that measurements are being taken, only such a fraction of the full rate should be allowed as is considered reasonable, with due regard to the work remaining to be done and the general terms of the agreement. The Head of Office will be responsible for seeing that the rates correctly represent the value of work done particularly in the case of additional items of work not covered by the agreement or items acceptable but not up to specification. In respect of items of work not provided for in the accepted tender the rates should be determined by the Head of Office with the consent of the contractor and approval of the Project Manager, provided that approval of the Project Manager will not be necessary in cases in which the original tender was accepted by the Head of Office under power delegated to him, but in order to enable the Project Manager to examine the rate finally accepted by the Head of Office the latter should communicate the analysis of rates to the Project Manager while forwarding copies of accepted tenders and rates to him. Whenever the total cost of the additional items of work not included in the tender exceed 5 per cent. of the sanctioned estimate, there should invariably be a supplementary tender to cover the additional items.

Note 1 : If the agreement does not specify the rates to be paid for the several classes of work or supply, but merely states that the estimated rates, or a certain percentage below or above them will be allowed, it should be seen that the standard rates adopted are those of the sanctioned estimate which was in force at the time the agreement was executed or, if the agreement was preceded by a tender, on the date, the tender was signed by the contractor.

Subsequent sanctions to original or revised estimates have no effect on the terms of such an agreement.

If no sanctioned estimate is in existence at the time of signing the agreement or the tender, as the case may be, the rates payable for each item of work should be specified as any reference to an estimate not yet sanctioned is meaningless and cannot be acted upon.

Note 2 : As a general rule, payment for supplies is not permissible until stores have been received and surveyed. The Chief Project Manager may in special case, permit payment on production of railway receipt. If in any case the Chief Project Manager has permitted payment on production of a railway receipt the payment will be treated as an advance against settlement on receipt of the stores.

Note 3 : In cases where a work is distributed among different contractors, the percentage should be applied on the estimated amounts of the respective portions of the work given out on each agreement.

Note 4 : All rates not shown in the agreement or differing from the rates in the agreement should be marked (by a red cross or otherwise) in the margin of the measurement book by the officer entering the rate so that such rates may be brought prominently to the notice of the Head of Office/Joint Project Manager

Notes 5 : When payment at part rates is made for unfinished items of work, the following certificate should be recorded on the bills over the signature of the Head of Office :—

“Certified that the value of works for which part rates are allowed has been correctly fixed after considering the works remaining to be done under the terms of the agreement”.

Note 6 : The calculation of “contents” or “area” in the measurement book should be checked by the Joint Project Manager followed by a check by the Accounts Wing in cases in which the bills are paid by the Joint Project Manager and by the Project Manager in cases in which he is empowered to pay the bill.

50. Before signing the bill the Head of Office should compare the quantities in the bill with those recorded in the measurement book and see that all the rates are correctly entered and when the bill is on a running account it should be compared with the previous bill. The Memorandum of Payments should then be made up, any recoveries which should be made on account of the work or supply or on other accounts being shown therein. If the Head of Office is empowered to pay the bill, he should, after all calculations in the bill have been checked arithmetically under his supervision, record a formal pay order specifying, both in words and figures, only the net amount payable, though the payee should be required to acknowledge in his acquittance the gross amount payable inclusive of the recoveries made from the bill.

Note 1 : In calculating the value of each item of work the nearest five paise should be taken, but paise must not be omitted from the rate.

Note 2 : Whenever fractions of rupee occur in the totals of contractors' bills or in the case of supplies chargeable to more than one estimate, in the totals chargeable to each estimate, fractions less than half may be disregarded, and half a rupee and over then as a rupee.

Note 3 : If the contract is for the completed items of work and, the contractor is required to obtain materials of any description from the Board, it should be seen that this condition is being complied with and that necessary recoveries of the cost of the materials supplied to him, are being made.

In such a case it is not permissible for the contractor to obtain the materials otherwise, unless, in a case of emergency, the supply has been entrusted by the Head of Office, for recorded reasons, to the contractor himself, at suitable rates.

Note 4 : Before signing a first and final bill, or the first bill on a running account, the Head of Office should see that the relevant measurement entries were marked as pertaining to such bills by the person taking the measurements.

Note 5 : Signature of the contractor or his duly authorised agent in the bill (F.R. Form Nos. 13, 14 and 15) should be taken before its submission to the Division Office for payment. If for any case this is not possible, the signature may be taken at the time of payment provided that the signature of the contractor or his duly authorised agent has been taken in the measurement book at the time of measurement in token of acceptance of measurements.

51. From the measurement book all quantities should be clearly traceable into the documents on which payments are made. When a bill is prepared for the work or supplies measured every page containing the detailed measurement must be invariably scored out by a diagonal red ink line, and when the payment is made an endorsement must be made, in red ink, on the abstract of measurements, giving a reference to the number and date of the voucher of payment.

Note : The document on which payment is made should invariably show, in the space provided for the purpose, the number and page of the measurement book in which the detailed measurements are recorded and the date on which the measurement was made.

52. When an on-account or final bill from the officer-in-charge of work has been received supply and there is likely to be delayed in passing it for special reasons which should be recorded, the Assistant Chief Project Manager may, at his own discretion, make a part payment against the amount billed for, to such extent as he deems available in Form No. 16. In such cases, the number and date of the voucher, and the amount paid will be noted prominently, at the time of payment, on the original bill against which the part payment is made.

The voucher (and its counterfoil) should bear reference to the number, date and amount of the bill against which the payment is made, to the number, date and amount of the voucher, if any, on which previous on-account payment was made and also to the page number of the measurement book. This payment should be treated in accounts as advances.

The following certificate should also be recorded on the voucher over the signature of the Project Manager :—

“Certified that the payment now made against the contractor’s bill is to the best of my belief less than the net amount billed for, after allowing for deduction on account of security deposit and value of materials issued, if any, and that the payment made will be adjusted against the bill which is being checked.”

CHAPTER IV

Duties and functions under the administrative charge Secretary (Controlling Officer)

53. He will be in charge of general administration of the Board work including co-ordination of business in branches of other controlling officers.

Contingent items

54. A list of contingent items and the rules for supply of articles required to be purchased for the HRBC are contained in Appendix 17-18.

55. No charge which binds the Board beyond a single payment may be incurred without the sanction of the controlling officer.

Note: The sanction of the controlling officer will not be required to the payment of Municipal|Corporation|Cantonment taxes.

All employees entitled to draw contingent bill may incur recurring contingent charges upto Rs. 25 a month for each item and for a period not exceeding six months other than those covered in item 1, subject to the existence of necessary budget provisions and to any restriction which the Board may desire to improve.

Note: Instructions laid down in Regulation (36-52) should be followed mutatis mutandis.

56. **Accounts for Service Postage Stamps.**—In order to watch and check the consumption of service postage stamps a register should be kept in the following form :—

Accounts of service postage stamps

Date	Opening balance	Receipts	Initials of Verifying Officer.	Issues	Initials of Verifying Officer	Closing balance
	Rs.	P. Rs.	P.	Rs.	P.	Rs. P.

Note: Details of Stamps in hand to be noted when an indent is placed.

Loans and Advances (For House Building, Purchases, etc.)

57. The grant of loans and advances in general, unless otherwise stated in respect of any particular category of loans, will require the sanction of the Board.

Estimates

58. Provisions should be made in the Budget for all loans and advances which can be foreseen. Heads of Administrations and other estimating authorities should, therefore, make a timely estimate both of the gross advances and recoveries of the coming year and should communicate it to the Government.

Defaults in payment

59. (1) Any default in the payment of interest upon a loan or advance, or in the repayment of the principal, will be promptly reported by the Financial Adviser and Chief Accounts Officer to the authority which sanctioned the loan or the advance. On receipt of such a report, the authority concerned should immediately take steps to get the default remedied.

Note: The responsibility of the F.A. & C.A.O under this regulation refers only to the loan the detailed accounts for which are kept up by him

(2) The authority which sanctions a loan may, in so far as the law allows, enforce a penal rate of interest including compound interest upon all overdue instalments of interest or principal and interest. If a penal rate is enforced it should not, except under special orders of the Board, be less than 8 per cent per annum.

60. The Board or any subordinate authority to whom power has been delegated can remit advances which are found to be irrecoverable.

61. In respect of the sanction of advances, for the detailed control, accounting and supervision of which departmental officers are responsible, it is the duty of the departmental authorities concerned, as soon as any such advance is ascertained to be irrecoverable, to take the necessary steps to get it written off the accounts under the sanction of Government and to advise the F.A. & C.A.O in order that he may make the necessary adjustment in the accounts. Irrecoverable advances written off should nevertheless be registered by the departmental authorities in a separate account or record, in order that any possible eventual recovery may be made.

Loans and Advances

62. (1) All employees who are not otherwise disqualified will be eligible for house building loans. A temporary employee who has rendered at least one year's continuous service under the Board will also be eligible for house building loans provided the sanctioning authority is satisfied that he is likely to continue in service of the Board at least till the completion of construction of the house for which the loan is sanctioned and property is mortgage to the Board. In case where such a temporary employee applies for a house building loan for the purpose of purchase of land for subsequent construction of house thereon, he will be eligible for the loan provided the sanctioning authority is satisfied that he is likely to continue in service of the Board at least till he is in a position to mortgage the title to the land and the building.

(2) Advances for purchase of motor cars, motor cycles, scooters/scootere auto-cycles, etc. will also be admissible to the above mentioned categories of employees, subject to the fulfilment of the conditions mentioned above and provided that the sanctioning authority is satisfied that they are likely to continue in the service of the Board at least till the conveyance, for which the advance is sanctioned, is purchased and/or mortgaged to the Board.

63. Simple interest at the rate specially fixed for the purpose by the Board will be charged on advances granted to employees for house-building and for the purchase of motor cars, motor boats, motor cycles and other conveyances, and typewriters the grant of which is regulated by the regulation laid down hereafter. The interest will be calculated on balances outstanding on the last day of each month.

Note 1 : In cases, where pay bills for a month are disbursed before the end of the month an instalment in repayment of an advance received through the pay bill will be taken as having been refunded on the first of the following month, the normal date for the disbursement of pay.

Note 2 : If in any particular case any advance is drawn in more than one instalment, the rate of interest recoverable should be determined with reference to the date on which the first instalment is drawn.

64. All advances are subject to adjustment by the employees receiving them in accordance with the rules applicable to each case. When an advance is adjustable by recovery, the amount to be recovered monthly should not be affected by the fact of the borrowing employee going on leave of any kind with leave salary or his drawing subsistence grant. The sanctioning authority may, in exceptional cases, order a reduction in the amount of the monthly instalment, provided that in the case of interest bearing advances to employees, the whole amount due should be completely recovered within the period originally fixed.

65. (1) In the case of interest-bearing advances to employees an authority empowered to deal with an application for an advance should ascertain under the head 'Loans and advances' if funds are available.

(2) The enquiry should be made after all preliminary investigations have been gone through, e.g., in case of house-building advances, examination of the title deeds of the land on which the house is to be built and which is to be mortgaged to the Board.

(3) The amount required will then be earmarked pending sanction. If in any case the advance is not sanctioned after the amount is intimated as available, the fact should be reported to the secretary so that it may be reallocated.

66. The bill on which advances are drawn must quote the authority sanctioning them and payment will be made by the Accounts Officer or other disbursing officers, on the authority of such sanction. All such sanction shall be communicated to the pay and Accounts Office|disbursing officers by the sanctioning authority whose signature will also be kept on record at those offices.

67. The mortgage bonds required to be executed under the following regulations for interest-bearing advances will be exempt from stamp duty, unless otherwise advised by the law officer.

Interest bearing advances—Advances for house-building, purchase of conveyances, etc.—

(a) House Building Advances.

(b) Construction of House.

68. Loans|Advances to employees for the construction of houses are regulated by the following regulations:—

(I) Advances may be made by the authorities declared as heads of Departments to employees serving under them who desire to build houses for occupation by themselves, of their families. No advance is ordinarily permissible to an employee who is likely to retire before complete recovery can be effected.

(II) All such advances must be bonafied required for the purpose of building suitable house for the personal residence of the employee concerned or their families, and if more is advanced, than shall be actually expended for the purpose, the surplus shall be refunded to the Board.

- (III) (a) The amount of the loan for purposes of construction of additions and alterations to house will be paid in three instalments in the following manner :-
- (i) Upto 50 per cent of the amount of the loan after observance of the usual formalities prescribed under the regulations for security of the loan.
 - (ii) Next 25 per cent of the amount of the loan after production of satisfactory evidence in support of the progress of construction upto plinth level (in the case of new construction) or considerable progress in the case of additions and alterations. Balance 25 per cent of loan after production of satisfactory evidence showing that the house under construction has reached roof level or showing that 50 per cent of the estimated work has been completed in the case of additions and alteration to a house.
- (b) In the case of purchase of ready-built house|flat or repayment of a private loan incurred, the amount of the loan admissible may be paid in one instalment after observance of the usual formalities prescribed under the regulations for security of the loan.
- (IV) No advance shall exceed thirty-six months' pay of the employee to whom it is made. Not more than one advance shall be made for the same house and no employee may receive an advance while any portion of a previous advance with interest accrued thereon is outstanding against him.
- (V) (a) Advance will be recovered by the deduction of monthly instalments, the maximum period of recovery of the amount of the loan and the interest accruing thereon will be 15 years, i.e. on 180 monthly instalments of which the first 140 instalments will represent recovery of principal and the balance 40 instalments interest accrued on the loan.
- (b) In the case of a permanent employee who's remaining service before superannuation is less than 15 years but who draws the maximum amount of loan equivalent to 35 months' pay or such amount as cannot be repaid out of his monthly salary for the rest of the period of his service, the recovery, will be made in the following manner provided he furnishes a collateral security in the form of hypothecation of his death and retiring gratuities|contribution and additional contribution in Provident Fund Account in addition to the normal security and also authorises the Board to deduct the outstanding principal and interest accrued on the loan from his death|retiring gratuity|contribution and Addl. contribution in Provident Fund Account :-
- (i) the recovery will be made by deduction from his monthly salary during the remaining period of his service at a monthly rate not less than the amount payable on the basis of repayment within 15 years (i.e. 1/40th part of the principal of the loan); and
 - (ii) the outstanding balance of the principal of the loan as on the date of his superannuation together with interest due will be recovered in lump by deduction from his death|retiring gratuity|Contribution/Additional Contribution in Provident Fund Account.

- (c) The recovery of interest will commence from the month following that in which the whole of the principal has been repaid.

Note : The amount of the advance to be recovered monthly should be fixed in whole rupees except in the case of the last instalment when the remaining balance including any fraction of a rupee should be recovered.

- (VI) In order to secure the Board from loss consequent on an employee dying or quitting the service before complete repayment of the advance with interest accrued thereon, in accordance with these regulations, the house so built, together with the land it stands upon, must be mortgaged to the Board, by whom the mortgage will be released on liquidation of the full amount due.

Note : The mortgage bond will be prepared in F.R. Form No. 6 and reconveyance in F.R. Form No. 8 (Annexed).

- (VII) The employee must satisfy the sanctioning authority regarding his title to the land upon which the house is or is proposed to be built.

Note 1 : This regulation does not preclude the grant of an advance to a person who may not possess full proprietary rights in the land which he had already taken or intends to take lease for construction of house provided the sanctioning authority is satisfied that the applicant has lease of which the unexpired portion is of a term and value sufficient to justify the grant of the advance and there is no danger of the lease lapsing or of the Board being unable to dispose of it, should it become necessary to foreclose the mortgage. In examining the mortgagor's title care should be taken to see that the lease does not prevent any sub-demise by the lease (the mortgagor). The mortgage bond in such cases will be prepared in F.R. Form No. 7 (vide Appendix 20).

In cases in which ground rent, municipal taxes and similar dues are payable to local authorities on account of land taken on lease, the sanctioning authority may, at its discretion, ask the employee taking the advance to produce for inspection receipts for these payments within fifteen days of their falling due. If the sanctioning authority finds that such dues have not been paid by the borrower steps may be taken to recover the said dues including interest thereon, if any, from the pay of the employee for payment to the parties concerned.

Note 2 : The applicant's title to the property should be examined by the Board's Law Officers before the advance is actually paid. In order to facilitate the examination by the Legal Remembrancer of the title to the land or house of the applicant for the grant of an advance for the construction or purchase of a house or making repairs, additions or alterations thereto or for repayment or private loan referred to in regulation 70 the papers relating to the title should be forwarded to the Legal Remembrancer. It should be seen that in the case of an advance for the construction of a house or making repairs or additions and alterations thereto the applicant has undisputed title to the land on which it is proposed to build or to the land together with the structures thereon to which it is proposed to make repairs, additions or alterations and that in the case of an advance for the purchase of a house he will obtain such title as soon as the purchase price is paid and that there will be no legal obstacle in either case to the property being

mortgaged to the Board; and that Government will have the right of foreclosing on the conditions mentioned in the mortgage bond. The procedure to be followed in dealing with applications for advances for the construction, purchase or repairs of houses is set forth in Appendix 22.

Note 3: A Copy of the sanction should invariably be forwarded to the F.A. & C.A.O. The Head of the Office in the case of a group C or D employee and the controlling officer in the case of a group A or B employee should record a certificate either in the bill in which the advance is drawn, or separately (which is to be enclosed with the bill) to the effect that the mortgage bond in F.R. Form No. 6 has been executed by the employee taking the advance and that it has been duly registered.

(VIII) If the employee ceases to be in service for reasons other than normal termination or dies before repayment of loan, the outstanding dues become repayable forthwith. The Board may in deserving cases permit the employee concerned or his successors-in-interest, as the case may be, to repay the outstanding amount together with interest in suitable instalments. Failure to repay the loan for any reason whatsoever will entitle the Board to enforce the mortgage and to take such other action to effect recovery of that outstanding amount as may be permissible.

(IX) Application for an advance must be made through the applicant's departmental superior, who will record his opinion as to the necessity for the assistance solicited. The applicant must certify that the sum is to be expended in building only, and pledge himself that should there be any surplus funds after the house is completed they will be at once refunded to the Board.

(X) The last pay certificate issued in favour of an employee who is granted advance must specify the original amount of such advance the amount repaid and the balance together with interest accrued in accordance with regulation 63 remaining due.

Note: Advances may also be given, where considered necessary, for the purchase of land or taking lease of land on which to construct a house, if the other conditions laid down in this regulation are satisfied and the total amount of the advance for the purchase of the land and the construction of the house does not exceed thirty-six months' pay of the employee concerned.

The employee should sign an agreement in F.R. Form No. 4 at the time of taking an advance for the purchase of land or for taking lease of land and the amount should not exceed what is required for the purpose. A mortgage deed in F.R. Form No. 5 should be executed before any further advance is drawn for the purpose of constructing the house. The mortgage deed must be registered within four months of its execution.

In order to save the Board from loss, the applicant's title to the property should be carefully examined by the sanctioning authority and the instruction laid down in appendix 16 should be followed.

Purchase of house or flat

69. (1) An advance may be made by the head of a department to an employee serving under him for the purchase of a house or a flat. The general principles of regulation 68 will be applicable and the employee will be required, in addition to a mortgage-deed, to deposit with the Board satisfactory evidence of a clear-title to the house or the flat.

Note 1: An advance drawn under this regulation may include provisions not only for the cost of the house purchased, but also for the cost of any essential repairs or improvements for the occupation of the flat.

Note 2: The advance may be drawn in full at once, but satisfactory evidence should be produced before the F.A.&CAO through the Head of the Office, to show that the amount advanced for the purchase has been spent within three months of its drawal and the amount advanced for repairs or improvements (see Note 1) within a further period of two months. A certificate to this effect from the Head of the Office will ordinarily suffice. The repayment in this case shall commence with the first issue of pay after the advance is taken. Interest will be calculated in accordance with regulation and the recovery thereof will be made as laid down in clause (v) under regulation 68.

Note 3: For the purpose of payment of the advance the Controlling Officer should record on the bill or separately a certificate to the effect that he has secured and retained with him an agreement in F.R. Form No. 4 signed by the applicant pending execution of the final mortgage bond in F.R. Form No. 6 after the house or the flat is actually purchased. The fact of execution and registration of the latter bond should also be intimated to the F.A. & C.A.O as soon as possible.

Note 4: In case where the price of the house or the flat is higher than the house building loan admissible to the employee the applicant should indicate the sources from which the balance amount of the price of the house or the flat will be met within one month from the drawal of the loan and without encumbering the property in any way so that the mortgage to be executed in favour of the Vice-Chairman will be a first charge as required under the regulations.

(2) An advance may also be given by heads of departments for the purpose of purchase of flat/houses from the West Bengal Housing Board on instalment basis provided that —

- (i) the employee concerned shall submit with his application for the loan the original or an attested copy of the letter of allotment of the flat/house by the West Bengal Housing Board containing in the communication or in a further communication from the Board the following particulars :—
 - (a) the price of the flat/house.
 - (b) the actual amount payable initially before delivery of possession of the property,
 - (c) the conditions for payment of the balance price of the flat/house in instalments, and
 - (d) whether the Board has permitted the employee to mortgage the flat/house in favour of the Vice-Chairman as a second charge.

- (ii) in case where the initial payment for the flat|house is higher than the house-building loan admissible to the employee he should indicate the details of the sources from which the balance amount of the initial payment of the flat|house will be met immediately for payment to the West Bengal Housing Board ;
 - (iii) he must give an undertaking in the prescribed form of agreement to be executed at the time of drawing the loan for the purchase of a flat|house on instalment basis that he shall mortgage the flat|house as a second charge within two months from the date of drawal of the loan ; and
 - (iv) the second mortgage should be executed in the prescribed form of Mortgage Deed for house-building loans for purchase of a flat|house on instalment basis from the West Bengal Housing Board.
- (3) All other existing terms and conditions regulating the grant of house building loans to employees shall apply *mutatis mutandis*.

Repayment of private loan

70. An advance may also be given by heads of departments for the purpose of repaying a private loan taken by an employee for any of the following purposes:—

- (i) for the purchase of a site for construction of house thereon ;
- (ii) for taking lease of a site for construction of house thereon provided the lease term does not expire before the full repayment of the principal and interest on the loan ;
- (iii) for the construction of a house ;
- (iv) for the purchase of a ready-built house ;
- (v) for taking lease of a ready-built house provided the lease term does not expire before the full repayment of the principal and interest on the loan ;
- (vi) for making additions and alternations to a house of which the employee concerned is the sole and undisputed owner, provided—
 - (1) that the usual conditions specified in the Note below clause (x) of regulation 68 and in regulation 69 are satisfied ;
 - (2) that the applicant has through his private loan acquired an unencumbered title to the land or the house purchased or taken lease of ; and
 - (3) that the original loan for the purchase or taking of lease of the land or the house, as the case may be, was taken not more than 12 months before the date of receipt of the application for an advance to discharge the private debt.

Repairs to house

71. An advance may be made by the head of department to an employee to enable him to effect repairs to his house—

- (I) An advance may be made only if (1) the repairs are required to make the house habitable, (2) they are not in the nature of ordinary repairs and (3) they involve an outlay large in comparison with the value of the house.
- (II) Not more than one advance is admissible in respect of the same house.

- (III) No advance shall exceed six months' pay of the employee to whom it is made, and it will be drawn as laid down in clause (iii) under regulation 68.
- (IV) An advance may be made to an employee to repair a house which he has built or purchased with a previous advance under regulation 68 or 69, but unless the Board permits otherwise, at least five years must elapse since the previous advance was drawn.
- (V) Subject to the above, the general principles of regulation 68 or 69, as the case may be, shall apply, the maximum period for repayment of such advances being two years. Interest will be calculated and recovered in accordance with clause (v) of regulation 68.

Additions and alterations to house

72. An advance may be made by the head of the department for making additions and alterations to a house, which may or may not have been originally built with an advance from the Board but which is the sole and undisputed property of the employee, subject to the following conditions:—

- (i) That a maximum advance of thirty-six months' pay subject to a limit of Rs. 15,000 will be admissible for additions and alterations to a house, provided that the outlay involved is large in comparison with the value of the house and all the conditions for the grant of an original house building advance have been fulfilled and an advance for additions and alterations to a house built with an advance from the Board is admissible. Repayment of such advances will be made in accordance with clause (v).
- (ii) That not more than one advance shall be made to an employee for additions and alterations to a house.

Subject to the above, the general principles laid down in regulation 68 regarding construction of a house shall apply.

Advance for purchase of conveyance

(i). Motor Car or Motor Boat

73. The Board may sanction an advance to an employee for the purchase of a motor car subject to the following conditions:—

- (1) An advance may be given only when the Board considers that it is in the interest of the public service that the employee should use a car in the discharge of his duties.
- (2) The total amount to be advanced to an employee shall not exceed—
 - (a) twelve months' pay or Rs. 16,000 or the anticipated price of the car whichever is the least, if the car is a new one;
 - (b) Rs. 10,000 or six months' pay, or the anticipated price of the car whichever is the least, if the car is an old one. If the actual price paid is less than the advance taken, the balance shall be refunded forthwith to the Board.
- (3) An employee who is on leave or about to proceed on leave for whom an advance has been approved by the Board will not be allowed to draw the advance earlier than a week before the expiry of the leave;

- (4) Recovery shall be made by deducting monthly instalments equal to one-seventy-twoeth part of the advance in the case of a new car, or boat and one-forty-eighth part of the advance in the case of an old car or boat from the pay bill of the employee. It shall commence with the first issue of pay after the advance is drawn. The authority sanctioning an advance may, however, permit recovery to be made in a smaller number of instalments if the employee receiving the advance so desires. The amount of interest calculated in accordance with regulation 63 shall be recovered in one or more instalments, each such instalment being not appreciably greater than the instalments by which the principal was recovered. The recovery of the interest shall commence from the month following that in which the whole of the principal has been repaid.

Note : The amount of the advance to be recovered monthly should be fixed in whole rupees except in the case of the last instalment when the remaining balance including any fraction of a rupee should be recovered.

- (5) Except when an employee proceeds on leave, other than leave on average pay for not exceeding four months, or retires from the service, or is transferred to an appointment the duties of which do not render the possession of a motor car necessary, the previous sanction of the Board is necessary to the sale by him of a car purchased with the aid of an advance which with the interest accrued in accordance with regulation 63 has not been fully repaid. If an employee wishes to transfer such a car to another employee who performs the duties of a kind that renders the possession of a motor car necessary, the Board may permit the transfer of the liability attaching to the car to the latter employee, provided that he records a declaration that he is aware that the car transferred to him remains subject to the mortgage bond and that he is bound by its terms and provisions.
- (6) In all cases in which a car or boat is sold before the advance received for its purchase with interest accrued in accordance with regulation 63 has been fully repaid, the sale proceeds must be applied, so far as may be necessary towards the repayment of such outstanding advance with interest. Provided that when the car is sold only in order that another car may be purchased the Board may permit the employee to apply the sale proceeds towards such purchase subject to the following conditions :—
- (a) the amount outstanding shall not be permitted to exceed the cost of the new car;
 - (b) the amount outstanding shall continue to be repaid at the rate previously fixed;
 - (c) the new car must be insured and mortgaged to the Board as required by these regulations.

Note 1 : The grant of an advance after a conveyance has been purchased is not admissible. In special case, however, an advance may be granted provided it was applied for before actual purchase of the conveyance. An advance may also be granted for a conveyance which has already been purchased but paid for in part, provided the amount of such advance does not exceed the balance of the price of the conveyance. The employee drawing an advance should certify on the bill on which the advance is drawn that the advance is not being drawn for a conveyance which has already been

purchased and paid for, or, that the advance claimed in the bill is not more than the minimum amount required to meet the balance of the price of the conveyance, if it has been paid for in part.

Note 2 : An employee may be allowed advance to purchase more than one car at a time if it can be shown that such action is clearly desirable in the public interest and provided that the total amount outstanding at any one time by way of such advances against a particular employee does not exceed the limit within which advances may be given.

Note 3 : An employee who draws an advance for the purchase of a motor car is expected to complete his negotiations for the purchase, and to pay finally for the car within one month from the date on which he draws the advance ; failing such completion and payment, the full amount of the advance drawn with interest thereon for one month, must be refunded to the Board. At the time of drawing the advance the employee will be required to execute an Agreement in F.R. Form No. 9 and, on completing the purchase, he will further be required to execute a Mortgage Bond in F.R. Form No. 10 hypothecating the car to the Vice-Chairman as security for the advance. The cost price of the car purchased should be entered in the schedule of specifications attached to the Mortgage Bond.

When an advance is drawn, the sanctioning authority will furnish to the F.A. & C.A.O./the Accounts Officer in consultation with the Pay and Accounts Officer, the disbursing officer, a certificate that the Agreement in F.R. Form No. 35 has been signed by the employee drawing the advance and that it has been examined and found to be in order. The sanctioning authority should see that the car is purchased within one month from the date on which the advance is drawn and should also submit every mortgage bond promptly to the F.A. & C.A.O for examination before final record.

Note 4 : The form of Mortgage Bond executed by an employee drawing an advance for the purchase of a motor car provides for insurance against full loss by fire, theft or accident. Insurance on owner-driven or other similar qualified terms is not sufficient for the purpose of these regulations. Insurance policies at a reduced rate of premium shall, however, be accepted as adequate in cases where—

- (a) the owner of the car undertakes to meet the first portion up to Rs. 100 of a claim preferred against an insurance company in the event of an accident, or
- (b) the car is not insured against accident for any season of the year during which it is not in use but is stored in a garage.

Such insurance should be effected within one month from the date of purchase of the car. After the insurance is effected the employee concerned shall send the insurance policy to the F.A. & C.A.O. within one month from the date of insuring the car. In the case where such a policy is renewed he shall also send to the F.A. & C.A.O through the Head of the Office, the certificate of renewal immediately after the renewal is effected. Contravention of these orders will render the employee liable to refund the whole of the amount of advance with interest accrued unless good reason is shown to the contrary. The amount for which the car is insured during any period should not be less than the outstanding balance of the advance with interest accrued at the beginning of that period and the insurance should be renewed from time to time until the amount due is completely repaid. If, at any time and for any reason the amount insured under a current policy is less than the outstanding balance of the advance, including interest already accrued, the employee should refund the difference to the Board. The amount to be refunded must be recovered in not more than three monthly instalments.

Note 4A : When a Motor Car is obtained with the assistance of advances from the Board and is mortgaged to the Board the Insurance Policy taken on the Motor Car shall invariably contain a clause as in F.R. Form Nos. 11-12 annexed and the insurance in such a case shall be arranged with such an Insurance Company as is prepared to interest the aforesaid clause in the Insurance Policy.

Note 5 : Advances for the purchase of motor cars to employee in foreign employ should be granted from the funds of the foreign employer and when the latter desires to make such an advance, he should apply to the Board for necessary sanction. The Board may grant sanction in such cases subject to the provision that the advance should be regulated by the same conditions as would apply if the employee were serving directly under the Board. In special cases, however, where an employee's services have been lent to a Municipality whose financial position will not permit of the advance being made from the funds the Board may, at its discretion, sanction advances from the State Budget provided the employee's duties are such as to render the possession of a motor car practically a necessity.

Note 6 : The "gross" amount of advances granted under this regulation in any year should not exceed the amount provided in the Estimates.

Note 7 : The grant of an advance under this regulation to an employee who proceeds on deputation out of India and desires a motor car for use during his deputation is not admissible.

74. The Board may sanction an advance to an employee for the purchase of a motor cycle, scooter, scooteretta, auto-cycle, etc., subject to the following conditions :—

- (1) That the advance is given only when the Board considers that it is in the interest of the public service that the employee should use a motor cycle, scooter etc. in the discharge of his duties.
- (2) That the substantive pay of the officer is not less than Rs. 500 but does not exceed Rs. 1,200 a month.
- (3) That the amount of the advance does not exceed Rs. 3,000 or the anticipated price of the motor cycle, scooter, scooteretta, auto-cycle, etc., whichever is less and in the case of purchase of an old motor cycle, scooter, scooteretta or auto-cycle, the advance shall be restricted to Rs. 2,000 or four months' pay of the employee, or the anticipated price of the conveyance, whichever is less. A second advance for the purpose should not be given before completion of three years from the date of complete recovery (including interest) of the first advance for the purpose of the same type or different type of conveyance. If the actual price paid is less than the advance taken, the balance should be forthwith refunded to Board.
- (4) That the recovery is made by deducting monthly instalments equal to one forty-eighth part of the advance from the pay bill of the employee concerned, commencing from the first issue of pay after the advance is drawn, and that the amount of interest calculated in accordance with the regulation 63 is recovered as laid down in clause (v) under regulation 68, the authority sanctioning an advance may, however, permit recovery in a smaller number of instalments if the employee receiving the advance so desires.

Note : The amount of the advance to be recovered monthly should be fixed in whole rupee except in the case of the last instalment when the remaining balance including any fraction of a rupee should be recovered.

- (5) That, except when an employee proceeds on leave, other than leave on average pay for not exceeding four months, or retires from the service, or is transferred to an appointment the duties of which do not render the possession of a motor cycle, scooter etc., necessary, the previous sanction of the Board is necessary to the sale by him of the conveyance purchased with the aid of an advance which interest accrued in accordance with regulation 63 has not been fully repaid. If the employee wishes to transfer such a conveyance to another employee who performs duties of a kind that renders the possession of a motor cycle, scooter, etc., necessary, the Board may permit the transfer of the liability attaching to the conveyance to the latter employee provided that he records a declaration that he is aware that the conveyance transferred to him remains subject to the mortgage bond and that he is bound by its terms and provisions.
- (6) That in all cases in which a conveyance is sold before the advance received for its purchase from the Board, with interest accrued in accordance with regulation 63 has been fully repaid, the sale proceeds must be applied, so far as may be necessary, towards the repayment of such outstanding balance with interest. Provided that when the conveyance is sold only in order that another conveyance may be purchased the Board may permit an employee to apply the sale proceeds towards such purchase, subject to the following conditions :—
- (a) the amount outstanding shall not be permitted to exceed the cost of the new conveyance ;
 - (b) the amount outstanding shall continue to be repaid at the rate previously fixed ;
 - (c) the new conveyance must be insured and mortgaged to the Board as required by these regulations.

Notes 1 to 7 regulation 73 apply to this regulation also.

Other conveyances

75. (1) An advance may be made by the head of a department to an employee for the purchase of a bicycle subject to the following conditions :—

- (a) An advance will be allowed only if in the opinion of the head of the department the possession of bicycle will add to the efficiency of the employee concerned. Advance for the purchase of bicycle will be given only to employee whose pay does not exceed Rs. 500 per mensem.
- (b) The total amount to be advanced to an officer shall not exceed Rs. 250 or the anticipated price of a bicycle, whichever is less.

(2) If the actual price paid is less than the advance taken, the balance shall forthwith be refunded.

Note: A further advance for purchase of bicycle shall not be given before completion of three years from the date of complete recovery (including interest) of the earlier advance.

(3) Recovery will be made, by deducting monthly instalments equal to one twenty-five part of the advance from the pay bill of the employee concerned. It will commence with the first issue of pay after the advance is drawn. The amount of interest calculated in accordance with regulation 63 will be recovered as laid down in clause (V) under regulation 68.

Note: The amount of the advance to be recovered monthly should be fixed in whole rupee except in the case of the last instalment when the remaining balance including any fraction of a rupee should be recovered.

(4) The bicycle purchased with the advance will be considered to be the property of the Board until the advance with interest accrued thereon in accordance with regulation 63 is repaid.

APPENDIX 4

(Regulation 26)

General principles to regulate the enforcement of responsibility for losses sustained by the Board through fraud or negligence and detailed instructions for making departmental investigation of losses of the Board money, etc.

A. The following general principles have been laid down by the Hooghly River Bridge Commissioners to regulate the enforcement of responsibility for losses sustained by the Board through fraud or negligence of individuals :—

1. Means should be devised to ensure that every employee realises fully and clearly that he will be held personally responsible for any loss sustained by the Board through fraud or negligence on his part, and that he will also be held personally responsible for any loss arising from fraud or negligence on the part of any other employee to the extent to which it may be shown that he contributed to the loss by his own action or negligence. The cardinal principle governing the assessment of responsibility in such cases is that every public officer should exert the same vigilance in respect of public expenditure and public funds generally as a person of ordinary prudence would exercise in respect of the expenditure and the custody of his own money. While, therefore, the Board are prepared to condone an officer's honest errors of judgement involving financial loss, provided the officer can show that he has done his best upto the limits of his ability and experience, they are determined to penalise officers who are dishonest, careless or negligent in the duties entrusted to them.

2. It is of the greatest importance to avoid delay in the investigation. If any loss due to fraud, negligence, financial irregularity is detected by audit in the first instance, it will be the duty of the audit officer to report immediately to the administrative authority concerned. If the irregularity is detected by the administrative authority in the first instance, he must make a report to the Vice-Chairman immediately. Every important case should be brought to the notice of superior authority. As soon as possible the administrative authority should report to his superior and the audit authority to his superior. Should the administrative authority require the assistance of the audit officer in pursuing the investigation, he may call on that officer for all vouchers and other documents that may be relevant to the investigation; and if the investigation is complex and he needs the assistance of an expert audit officer to unravel it, he should apply forthwith for that assistance to the Board who will then negotiate with the Accountant-General for the services of an investigating staff. Thereafter the administrative authority and the audit authority will be personally responsible, within their respective spheres, for the expeditious conduct of the enquiry.

3. In any case in which it appears that recourse to judicial proceedings is likely to be involved, competent legal advice should be taken as soon as the possibility emerges. In the case of losses involving a reasonable suspicion of fraud or other criminal offence a prosecution should be attempted unless the legal advisers consider that the evidence available is not such as will secure a conviction. The reasons for not attempting a prosecution should be placed on record in all such

4. In cases where loss is due to delinquencies of subordinate officials and where it appears that this has been facilitated by laxity of supervision on the part of a superior officer, the latter should also be called strictly to account and his personal liability in the matter carefully assessed.

5. The question of enforcing pecuniary liability should always be considered as well as the question of other forms of disciplinary action. In deciding the degree of the officers' pecuniary liability it will be necessary to look not only to the circumstances of the case but also to the financial circumstances of the officer, since it should be recognised that the penalty should not be such as to impair the employee's future efficiency.

In particular, if the loss has occurred through fraud, every endeavour should be made to recover the whole amount lost from the guilty persons, and if laxity of supervision has facilitated the fraud, the supervising officer at fault may properly be penalised either directly by requiring him to make good in money a sufficient proportion of the loss, or indirectly by reduction or stoppage of his increments of pay.

It should always be considered whether the value of the Board's property or equipment lost, damaged or destroyed by the carelessness of individual entrusted with their care should not be recovered in full up to the limit of the officer's capacity to pay.

6. The fact that officers who were guilty of frauds or irregularities have been demobilised or have retired and have thus escaped punishment should not be made a justification for absolving those who are also guilty but who still remain in service.

7. The general rule should be that in all cases of fraud, embezzlement, or similar offences, departmental proceedings should be instituted at the earliest possible moment against all the delinquents, and conducted with strict adherence to the rules up to the point at which criminal prosecution of any of the staff of the Board begins. At that stage it must be specifically considered whether further conduct of the departmental proceedings against any of the remaining delinquents is practicable; if it is, it should continue as far as possible which will not, as a rule, include finding and sentence. If the accused is convicted the departmental proceedings against him should be resumed and formally completed. If the accused is not convicted, the departmental proceedings against him should be dropped unless the authority competent to take disciplinary action is of the opinion that the facts of the case disclose adequate grounds for taking departmental action against him. In either case the proceedings against the remaining delinquents should be resumed and completed as soon as possible after the termination of the proceedings in Court.

8. The proceedings contemplated in these instructions are those which are regulated by the regulation in Chapter 9 of the Hooghly River Bridge Commissioners Service Regulation, Pt. 1.

ANNEXURE TO REGULATION 36

(1) An inventory of the following stock, namely, plants and machinery, furniture and fixtures should be maintained in all Board offices.

(2) The inventory should be priced wherever the items have to enter into the block accounts maintained to calculate the charge to be levied upon private persons or bodies. As regards other items a numerical inventory would suffice, except for articles costing above Rs. 25, but depreciation need not be shown against such items.

(3) The inventory should ordinarily be maintained at the site of the stock. Whether it is desirable, in any particular case, to depart from this general principle or to maintain additional consolidated inventories elsewhere should be decided on the merits of each case.

(4) The inventory should be checked at least once in every year by the competent administrative authority or such other officer as may be specially authorised by him in this behalf who should, after verification, record a certificate in the following form over his own signature :

"Inventory verified up to discrepancies (if (Date) and steps taken to reconcile any)."

(5) The existing practice in the various departments should be scrutinised in the light of the above orders and, as far as possible, brought into harmony therewith.

For maintaining the inventories of dead stock (i.e. plant, machinery, furniture and fixtures) and stores, the attached model form may be used, as far as practicable. When the value account need not be maintained, the columns relating to value may be kept blank.

PART I—GENERAL

Rules for the supply of articles required to be purchased for the Hooghly River Bridge Commissioners

Preamble.—The policy is to make purchases of stores for the public service in such a way as to encourage the development of the industries of the country to the utmost possible in consistent with economy and efficiency.

In order to give effect to the above policy preference in making purchases will be given in the following order :—

First, to articles which are produced in India in the form of raw materials, or are manufactured in India from raw materials produced in India, provided that the quality is sufficiently good for the purpose;

Secondly, to articles wholly or partially manufactured in India from imported materials provided that the quality is sufficiently good for the purpose;

Thirdly, to articles of foreign manufacture held in stock in India provided that they are of suitable type and requisite quality;

Fourthly, to articles manufactured abroad which need to be specially imported.

Rule 1—All articles required to be purchased for the public service shall be purchased on the condition that delivery shall be made in India, for payment in rupees in India.

Rule 2—Tenders shall be invited in India and abroad also when considered desirable, for the supply of all articles which are purchased under rules 1 to 4, whenever the value of the order to be placed is Rs. 250 or more unless there are sufficient reasons to be recorded which indicate that it is not in the public interest to call for tenders. No tender which fails to comply with the condition as to delivery and payment prescribed in rule 1 shall be accepted.

In cases where the tender which is prima facie the most economical is not accepted, the reason for its non-acceptance should be recorded.

Note : The principles regarding contracts and tenders are enunciated in regulation 29.

Rule 3—All articles, whether manufactured in India or abroad, shall be subject to inspection before acceptance, and articles for which specifications and/or tests have been prescribed by Government shall be required to conform to such specifications and/or to satisfy the prescribed test or tests which may be carried out during manufacture or before or after despatch from the suppliers' premises.

Note : Copies of the lists of specifications and tests may be obtained direct from the Indian Stores Department.

Rule 4—Important plant, machinery and iron and steel work, when obtained in India, shall be obtained only from firms approved by the Indian Stores Department and specified in the lists issued by that department from time to time.

Rule 6—Nothing in these rules shall be deemed to prohibit the purchase of stores by one department from another.

Note : All articles manufactured in jails as mentioned in the catalogue to be issued annually must ordinarily be obtained from the jails and may only be purchased from private firms if the cost of buying articles in this way is materially less than that of obtaining them from the jails after taking cost of transport into account.

(1) On receipt of an application for an advance, the head of the office should satisfy himself that the amount of the advance applied for has not been over-estimated and recommended to the Head of the Department i.e. Vice Chairman for sanction of the advance after proper examination.

(2) The sanctioning authority has to satisfy himself regarding the applicant's clear title to the property. If he decides to sanction the advance, he should forward the application together with the paper referred to in Paragraph (I) to the Collector of the District concerned for verifying the applicant's title to the property.

(3) The Collector should forward the papers to the local Board Pleader, who himself or one of his assistant; should personally inspect the land or the house, examine the applicant, and require him to produce further documents, if any, in his possession.

The vendor should next be examined, and he also should be required to produce his title deeds. If the site or house has changed hands more than once, as often happens, then all the predecessors in title of the present vendor should be examined with their title deeds. When the property lies in a municipal area, the Secretary of the Municipal Committee should then be asked to report, after reference to his records, what person or persons have been in actual possession of the house or the land concerned during the past 12 years.

(7) Clause III of regulation 68 requires that an advance for the construction of a house should be paid in instalments, the amount of each instalment being such as is likely to be required for expenditure in the next three months, that satisfactory evidence should be produced by the applicant to show that the amount of the previous instalment has been actually utilised for the purpose for which it was drawn before the next instalment is paid.

The head of the office or a responsible assistant should verify by personal local inspection that the conditions laid down in the regulation have been fulfilled

Provided that where appointment of persons initially made otherwise than in accordance with the relevant recruitment regulations is subsequently regularised in consultation with the Selecting Authority, seniority of such persons shall be determined from the date of regularisation and not from the date of appointment. The inter-seniority amongst such persons shall, however, depend on the date of appointment of each such person in the Board.

Provided further that if any person selected for appointment to any post does not join within two months of the offer of appointment, his seniority shall count from the date on which he joins the post unless the appointing authority for reasons to be recorded in writing condones the delay in consultation with the selecting Authority.

When the date of joining of all such persons is the same, seniority shall be determined on the basis of date of birth, person retiring earlier being adjudged as senior. When the date of birth is the same, seniority shall be determined on the basis of total marks obtained by each in the examination, passing of which is the qualification prescribed for recruitment to the particular post, cadre or grade.

(3) In so far as the determination of relative seniority of persons selected by the selecting authority for appointment to different posts in the same grade with different qualifications seniority shall be determined from the date of joining.

5. Determination of seniority of promotees.—(1) Seniority of persons appointed on promotion to any post, cadre or grade shall be determined from the date of joining such post, cadre or grade.

(2) When there will be appointment of more than one person in a single process of selection, the relative seniority of persons so appointed shall be determined by the order in which they are selected for such promotion.

(3) Persons appointed on the result of an earlier selection shall be senior to those appointed on the results of a subsequent selection.

(4) Where promotions to a post, cadre or grade are made from more than one post, cadre or grade, the relative seniority of the promotees from different posts, cadres or grades shall be according to the order of merit determined by the selecting authority.

Note: (1) A list of candidates for the purpose of selection for promotion shall be prepared in all cases by the selecting authority when appointments are made on promotion of more than one person in a single process of selection.

(2) Where the inter-seniority amongst several persons has not been determined prior to the coming into force of these regulations, such seniority shall, on the coming into force of the regulations, be determined on the basis of date of joining. When the date of joining of all such persons is the same, seniority in the promotion post, cadre or grade shall follow the seniority in the lower feeder post, cadre or grade.

6. Relative seniority of direct recruits and promotees.—(1) The relative seniority between a promotee and a direct recruit shall be determined by the year of appointment or promotion of each in the post, cadre or grade irrespective of the date of joining.

(2) The promotees shall be en-block senior to the direct recruits of the same year.

7. Determination of seniority of transferees.—(1) The relative seniority of persons appointed by transfer to a post, cadre or grade from another post, cadre or grade shall be determined by the order of selection for such transfer.

(2) When such transfer involve two or more persons selected from different units or offices on the same occasion, the appointing authority for such appointment on transfer shall indicate the order of merit of the selected persons in each case.

(3) The relative seniority between a promotee, a transferee and a direct recruit shall be determined by the year of promotion or transferee or direct recruitment, promotees being en-block senior to transferees and direct recruits and transferees being en-block senior to direct recruits.

8. Service benefits.—For the purpose of service benefits available on the basis of seniority, seniority shall mean the seniority determined under these regulations.

9. Interpretation.—If any question arises relating to the interpretation of these regulations, it shall be referred to the Board whose decision thereon shall be final.

10. Repeal and saving.—All regulations, orders or memoranda concerning matters covered by these regulations are hereby repealed provided that the cases of benefits already given on the basis of seniority determined in accordance with the principles in force prior to the coming into force of these regulations shall not be affected :

**THE WEST BENGAL NON-AGRICULTURAL TENANCY
(AMENDMENT) BILL, 1986.**

**A
BILL**

to amend the West Bengal Non-Agricultural Tenancy Act, 1949.

WHEREAS it is expedient to amend the West Bengal Non-Agricultural Tenancy Act, 1949, for the purpose and in the manner hereinafter appearing ;

West Ben.
Act XX of
1949.

It is hereby enacted in the Thirty-seventh Year of the Republic of India, by the Legislature of West Bengal, as follows :—

Short title. 1. This Act may be called the West Bengal Non-Agricultural Tenancy (Amendment) Act, 1986.

*The West Bengal Non-Agricultural Tenancy (Amendment)
Bill, 1986.*

(Clauses 2—4.)

Amend-
ment of
section 1
of West
Ben. Act
XX of
1949.

2. In section 1 of the West Bengal Non-Agricultural Tenancy Act, 1949, for sub-section (2), the following sub-section shall be substituted and shall be deemed always to have been substituted :—

“(2) It extends to the whole of West Bengal except the area to which the provisions of the Calcutta *Thika* Tenancy Act, 1949 apply but not excepting the area to which such provisions may have ceased or may hereafter cease to apply by virtue of any law for the time being in force.”.

West Ben.
Act II of
1949.

West Ben.
Ord. IX of
1967.

STATEMENT OF OBJECTS AND REASONS.

In between September 1967 and the year 1974, neither the Calcutta *Thika* Tenancy Act, 1949 nor the West Bengal Non-Agricultural Tenancy Act, 1949 was applicable to the areas of Garden Reach Municipality, as notified under section 1 of the Calcutta Suburban Police Act, 1866. As such, these areas came to be governed by the general law, namely, the Transfer of Property Act, 1882. Taking advantage of this position, the landlords of the area filed eviction suits against the *thika* tenants and obtained ejectment decrees on the basis of the provisions of the Transfer of Property Act, 1882. The Calcutta *Thika* Tenancy (Acquisition and Regulation) Act, 1981 is not also applicable to these areas. It is, therefore, felt necessary that, to save the interest of *thika* tenants, sub-section (2) of section 1 of the West Bengal Non-Agricultural Tenancy Act, 1949 should be amended suitably so that the provisions of the Act may apply retrospectively to the areas of Garden Reach Municipality as notified under section 1 of the Calcutta Suburban Police Act, 1866.

2. The Bill has been framed to achieve the above objective.

- (b) where the amount of pension to which he is entitled under such law or otherwise, is less than that to which he is entitled under sub-section (1), such person shall be entitled to pension under that sub-section only of an amount which falls short of the amount of pension to which he is otherwise entitled under that sub-section.
- (4) Notwithstanding anything contained in sub-section (3), where any person entitled to pension under sub-section (1) is also entitled to any pension from the Central Government or any State Government as a freedom-fighter, then, the pension to which such person is entitled as a freedom-fighter shall not be taken into account in calculating the amount of pension to which he is entitled under sub-section (1).

The West Bengal Legislature (Members' Pension) Bill, 1986.

(Clauses 4, 5.)

- (c) where the Legislative Assembly remains suspended under article 356 of the Constitution of India, the period during which the Legislative Assembly remains so suspended shall be taken into account.

Power to
make
rules.

4. (1) The State Government may, by notification in the *Official Gazette*, make rules for carrying out the purposes of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters:—

- (a) the form in which and the authority to whom an application for pension shall be made;
- (b) the form in which certificates, if any, shall be furnished along with the application for pension;
- (c) the declarations to be made at the time of drawing the pension;
- (d) any other matter necessary for proper implementation and enforcement of this Act.

Power to
decide in
the case of
doubt or
dispute.

5. If any doubt or dispute arises as to whether a person is entitled to any pension or as to the amount of pension or as to the period for which he shall be entitled to pension under this Act, the matter shall be referred to the State Government, and the decision of the State Government thereon shall be final.

STATEMENT OF OBJECTS AND REASONS.

At present there is no provisions for pension for the Members of the West Bengal Legislature. It is, however, considered necessary that the Members of the West Bengal Legislature should be allowed a certain amount of monthly pension on certain conditions under an appropriate law.

The Bill has been framed with the above object in view.

CALCUTTA,
The 25th March, 1986.

PATIT PABAN PATHAK,
Member-in-charge.

FINANCIAL MEMORANDUM.

It is proposed to provide pension on certain conditions to persons who served as Members of the West Bengal Legislature. The amount of pension for each of such Members shall be not less than Rs. 400 per month and not more than Rs. 500 per month.

At present the number of Legislators who may receive such pension is estimated at 1,254 only. Now if the aforesaid 1,254 persons are given pension at the flat rate of Rs. 400 per month additional annual recurring expenditure on this account shall be Rs. 60,19,200 only and making provision for those who have served for more than five years and are therefore entitled to additional pension, total annual recurring expenditure for according pensionary benefits to such legislators will be about Rs. 65,00,000 only.

Hence the total financial implication of the proposal comes to an annual recurring expenditure of Rs. 65,00,000 only.

3. In section 2 of the principal Act, in clause (s), after the words "or supervisory work", the words ", or any work for the promotion of sales," shall be inserted.

4. For section 15 of the principal Act, the following section shall be substituted:—

15. (1) Where an industrial dispute has been referred to a National Tribunal for adjudication, it shall hold its proceedings expeditiously and shall, within the period specified in the order referring such industrial dispute or the further period extended under the second proviso to sub-section (2A) of section 10, submit its award to the appropriate Government.

(2) Where an industrial dispute has been referred to a Labour Court or Tribunal under sub-section (1) of section 10, it shall,—

(a) after the filing of statements and taking of evidence, give day to day hearing and pronounce its award, other determination or decision in the manner specified in section 17AA, and

(b) after hearing the parties to the dispute, determine, within a period of sixty days from the date of the order referring such industrial dispute or within such shorter period as may be specified in such order, the quantum of interim relief admissible, if any:

Provided that the quantum of interim relief shall, in the case of discharge, dismissal or retrenchment of a workman from service or termination of service of a workman, be equivalent to the subsistence allowance admissible under the West Bengal Payment of Subsistence Allowance Act, 1969."

West Ben.
Act
XXXVIII
of 1969.

STATEMENT OF OBJECTS AND REASONS.

Section 2(s) of the Industrial Disputes Act, 1947 (14 of 1947) was amended, in its application to West Bengal, by the Industrial Disputes (West Bengal Second Amendment) Act, 1980 to include 'sales promotion' in the definition of workman. Section 15 of the Industrial Disputes Act, 1947 (14 of 1947) was also amended by the Industrial Disputes (West Bengal Second Amendment) Act, 1980 to provide for detailed procedure for the Tribunals and Labour Courts. Subsequently, Parliament amended the Industrial Disputes Act, 1947 by the Industrial Disputes (Amendment) Act, 1982 which, *inter alia*, amended section 2(s) and section 15 of the principal Act. But by amendment of section 2(s), 'sales promotion' has not been specifically included in the definition of workman. Similarly, amendment of section 15 has provided somewhat different procedure for the Tribunals and Labour Courts. This has apparently created a confusing situation as to the maintainability of the aforesaid State amendments side by side with the principal Act as amended by the Central amending Act of 1982. With a view to removing any likely confusion, it is proposed to further amend section 2(s) and section 15 of the principal Act, in its application to West Bengal. The Bill has been framed with the above objects in view.

15. No work of operation, repair or maintenance shall be undertaken except under the direct supervision of a person who, by his training, experience and knowledge of the necessary precautions against risk of explosion is competent to supervise such work. No electric generator after erection of repairs shall be switched on to the electrolyser unless the same is certified by the competent persons under whose direct supervision erection or repairs are carried on to be in a safe condition and the terminals have been checked for the polarity as required by paragraph 9.

16. Every part of the electrolyser plant and the gas holders and compressor shall have a regular schedule of overhaul and checking and every defect noticed shall be rectified forthwith.

17. Where the Chief Inspector is satisfied that owing to the special conditions or special methods, all or any of the provisions of this Schedule are not necessary for the protection of persons employed, he may by order in writing exempt any factory from all or any of such provision subject to such conditions as he may specify therein. Such order may at any time be revoked by the Chief Inspector at his discretion"

STATEMENT OF OBJECTS AND REASONS.

Under article 201 read with article 200 of the Constitution of India the Governor returned to the House of the West Bengal Legislature the Industrial Disputes (West Bengal Amendment) Bill, 1981 (as passed by the West Bengal Legislative Assembly on the 10th September, 1981) and the Industrial Disputes (West Bengal Amendment) Bill, 1984 (as passed by the West Bengal Legislative Assembly on the 23rd April, 1984) with a message dated the 26th June, 1985 in respect of each of the Bills as aforesaid requesting the House to reconsider the Bills as some of the provisions of the Bills had already been given effect to by the Central Government in the Industrial Disputes (Amendment) Act, 1982 (46 of 1982), with effect from the 21st August, 1984. As the period of six months, referred to in the proviso to article 201 of the Constitution of India, within which the Bills were to be reconsidered had, in the meantime, already elapsed, the Bills could not be reconsidered by the House within the stipulated period.

It is, however, expedient to amend the Industrial Disputes Act, 1947, in its application to West Bengal, keeping in view the message in respect of each of the Bills as aforesaid, with the object of—

- (i) bringing cases of refusal of employment within the ambit of section 2A;
- (ii) allowing reference of dispute involving individuals to specified Labour Court/Tribunal by the party raising the dispute within a period of sixty days on completion of conciliation proceedings in a specified manner;

-
- (iii) amending section 25-0 further to ensure that the workers of closed down units are not deprived of payment of their dues and compensation in time and, for that purpose, to require the employers of such units to furnish necessary guarantee to the appropriate Government;
 - (iv) amending section 25P for making special provisions to empower the State Government to direct re-starting of those units which were closed down prior to the passing of this Bill into law; and
 - (v) amending section 38 of the Act to allow for framing of rules regarding manner of self-reference of individual cases to specified Labour Court/Tribunal.

The Bill has been framed with the above objects in view.

7. Interim Report of the Major Ports Reforms Committee—It was resolved that—

(i) there was no need to form Management Boards. What duties the Committee proposed to assign to such a Board could easily be assigned to Chairman.

Government had therefore, sufficient scope for reducing the number of Trustees in individual Ports. It was not necessary to amend the Act further in that respect. On the other hand, such an amendment would create difficulties, e.g., for the Port of Calcutta where the interest of Haldia was required to be adequately represented.

(iii) the representation of Users in the Board should at least be 1/3rd of the total number of positions in the Board excluding Chairman and Deputy Chairman.

8. Opening of a new Account with the State Bank of India, Ranaghat and closure of the Bank Account with State Bank of India, Krishnanagar, in connection with Silt Trap Dredging work at Balagarh, Hooghly—It was resolved to sanction the proposal.

On 3rd of July 1978 after hearing the respective parties Mr. Justice Salil Kumar Roychowdhury (as he then was) passed no order on the application made by the respondents and directed the respondents to file the written statements and to discover documents and the matter was directed to appear in the list of 2nd of September 1980.

The petitioner contested the said Lok Sabha election held in the year 1980 from the Barrackpore Parliamentary Constituency held on 6th of January 1980 as a candidate sponsored by the Indian National Congress led by Smt. Indira Gandhi. The symbol was the picture of hand. The total number of voters in the voters' list in the parliamentary constituency was 6,11,700 approximately. The total number of voters who had polled in the said election as reported in the leading newspapers of the State of West Bengal was 4,72,239 and the number of invalid votes was given in the said newspapers as 12,221. The petitioner stated that under the Left Front Government, an organisation of the Government employees subservient to the political interest of the said Left Front Government were activated and the said organisation of the Government employees was commonly known as Co-ordination Committee. These members of the Co-ordination Committee were placed in various important and crucial posts including election office of the Chief Electoral Officer, West Bengal. The entire set up including the police forces of West Bengal were made subservient to the political interest of the Left Front Parties. The enumerators appointed for preparing the electoral roll were mostly members and supporters of the said Co-ordination Committee. As a result they did not include the names of several hundreds of genuine voters and excluded the names of several hundreds genuine voters so that mass scale rigging could be perpetrated in the said election in favour of the candidates of the Left Front. All these according to the petitioner were done with the consent, knowledge and connivance of the respondents. The petitioner's repeated protest went unheeded by the respondent No. 5. The petitioner's further contention was that in the said Barrackpore Constituency, the draft electoral roll contained 1,10,000 fictitious names of voters who were either dead or bogus or had left the constituency. Numerous representations were made by the petitioner against such retention of names of fictitious, bogus, dead and non-existence voters which were the wrongful acts of the members and supporters of the Co-ordination Committee. In spite of such objection, protest and complaints, the electoral roll was published containing the same names. The petitioner filed his nomination paper for the said election and the election for that constituency took place on 6th January 1980. The voting was done on the 7th of January 1980 which continued till 8th of January 1980. The result of the said election was published in Calcutta leading papers whereunder it was shown that the respondent No. 1 Mr. Ismail obtained 2,66,698 votes whereas the petitioner obtained 1,62,770 votes and there were other candidates also. It was the petitioner's case that more than 1,10,000 votes were cast falsely by the members and supporters of the Left Front Government with the help of the fictitious names which the petitioner contended that he would be able to demonstrate upon discovery and inspection of the ballot papers compared with the official electoral roll at the time of hearing of this application. Apart from that the petitioner contended that various corrupt practices had been resorted to, undue influence had been practised, unfair means were adopted which included misuse of the Government fund to the tune of one lakh by producing a cinematographic film in the Bengali language made by Canachitra under the name "Jaruri Abasthar Dushwapna", and caused the said film to be shown

in various centres of the constituency in order to influence the voters and thereby calling upon the voters not to vote in favour of the petitioner in as much as his candidature had been sponsored by the Indian National Congress led by Smt. Indira Gandhi where it was stated in the said film that she was a murderer and dictator during her Prime Ministership in India until 1977. Bengali Drama as 'Kalo Haat' was staged by professional groups of actors and actresses by calling upon the voters of the said constituency not to vote for the petitioner and or the symbol of hand. The respondent in collusion and conspiracy with each other made false acquisition through publication of wall posters, wall writing, leaflets, hand bills, depicting or showing that the petitioner was a murderer of seven persons in Barasat and called upon the voters not to vote in favour of the petitioner in as much as the petitioner would again murder persons in the constituency if elected. The petitioner stated that he was not a murderer, nor any criminal charge had been brought against him. Articles were published in the magazine "Paschim-banga" at the Government expenses wherein the slogans, writings, articles were printed in the same manner and language as depicted in the Left Front posters, hand bills, etc. Several hundred wall posters, writings, pamphlets were published where Smt. Indira Gandhi was shown as a snake, vulture, witch, murderer with the caption as a killer of democracy thereby calling upon the voters not to cast any vote in favour of the petitioner in as much as he was sponsored by the party lead by Smt. Indira Gandhi. Even in the election speech delivered, the petitioner was mentioned as a murderer. The Honourable Chief Minister held several meetings at Mirabagan, Naihati Railway Ground, Ramnagar, Annapurna Cotton Mills Ground, Gandhi More, in support of the respondent No. 1 by using West Bengal Government vehicle at the Government expenses. Similarly, Mr. Amin at the Government expenses disregarding all laws regarding the prohibition of publicity went on canvassing to the voters. The petitioner lodged complaint to the Officer-in-charge of the Election Office at Barrackpore and craved reference to the receipt granted by the said respondent. Mr. Hasim Abdul Halim also travelled by Government vehicles at Government expenses and held several election meetings. According to the petitioner on the date of the election there was false voting, impersonation of voters in mass-scale in a pre-planned manner in the said constituency, who cast votes in favour of the respondent No. 1. Even duplicate and false ballot papers had been inserted in the ballot boxes. A few of such ballot papers stamped in favour of the respondent No. 1 were found by the petitioner, a little distance away from the polling station No. 60, some of the ballot papers did not contain any serial number. Under the circumstances the petitioner asserted that upon examination of the ballot papers of the said constituency several lakhs of false and duplicate ballot papers would be found which had been inserted in the polling booths at the instance of the respondent No. 1 in collusion and conspiracy with the respondent Nos. 6, 7, 8 and 9. Even ballot papers purportedly signed by the Presiding Officer and stamped in favour of the respondent No. 1 was lying on the ground. The petitioner gave these particular of rigging which according to the petitioner took place at the time of counting of votes in the petition itself. People or the organisers of the petitioner who were

conducting the election campaign on behalf of the petitioner were arrested by the police authorities on false and frivolous charges. The petitioner's grievance was that undue influence, corrupt practice, rigging, manipulation of votes went on in an unprecedented scale with the active connivance and the assistance of Government officers, Police authorities, Honourable Ministers, so that the respondent No. 1 could win the election. The petitioner by letters brought it to the notice of the Returning Officer. Apart from that huge members were brought with the consent of the respondent No. 1 as also respondents Nos. 5, 6, 7, 8 and 9 who carried huge quantities of arms and ammunition with them. These persons had criminal records and were notorious hoodlums for the purpose of creating troubles in the polling booths and creating an atmosphere of disturbance and violence in the polling booths to frighten away the genuine voters. The petitioner informed the Subdivisional Assistant and Returning Officer and relied upon copies of such letters. All the complaints made by the petitioner in writing to the District Magistrate, District Returning Officer, 24 Parganas, Chief Election Officer, West Bengal, had been duly informed. Even in the counting agents some members of the Co-ordination Committee participated to manipulate counting of votes. Even some voters were wrongfully not allowed for casting their votes by the Presiding Officer. Various other serious allegations had been made by the petitioner. The petitioner relied upon various documentary evidence in support of his contention.

The respondent Nos. 6, 7 and 9 moves a Special Leave Petition before the Supreme Court of India whereunder the further proceedings were stayed by the Supreme Court. Long thereafter by an order passed by the Supreme Court, dated 26th of February 1982, the learned judges allowed the appeal and directed to strike out the names of the appellants in the said appeal. Under the circumstances, Mr. R. K. Lala

appearing on behalf of the petitioner contended that although the names of the appellants were directed to be struck out from the array of the parties in the election petition but there had been no order for expunging the allegations contained in the petition against them. Therefore the matter was pending before Mr. Justice Basak and Mrs. Justice Monjula Bose for a long time during which period the petition was not heard.

Thereafter at the request for expeditious hearing of the matter from the Election Commissioner the Learned Acting Chief Justice Mr. Tarun Kumar Bose, specially assigned the matter before this Court. The matter was placed before this Court on 11th of June 1984 when this Court directed the matter to appear in the list of 13th of June 1984 marked as 'to be mentioned'. On the 13th of June 1984 after hearing Mr. R. K. Lala and Mr. Salil Kumar Ganguly for the respondents, the matter was placed in the list for 19th of June 1984 for hearing. On the 19th of June, this Court after hearing the matter settled the issues and at the request of Mr. Ganguly fixed the matter for hearing on 19th of July 1984. Such issues were settled relying upon the averments made in the pleading as also the documents including photographs referred to by the petitioner. On the 19th of July 1984 Mr. Lala on behalf of the petitioner submitted that the petitioner wished not to proceed with the petition as a result this Court passes no order on this application.

ELECTION COMMISSION OF INDIA
NOTIFICATION

Dated New Delhi, the 30th April 1986

No. 82|WB|(1|82)|85.—In pursuance of section 106 of the Representation of the People Act, 1951 (43 of 1951), the Election Commission hereby publishes the order dated the 22nd July 1985 of the High Court at Calcutta, in Election Petition No. 1 of 1982.

ELECTION PETITION

Case No. 1 of 1982

IN THE HIGH COURT AT CALCUTTA
Ordinary Original Civil Jurisdiction

Present :

The Hon'ble Mr. Justice AJIT KUMAR SENGUPTA
July 22, 1985.

Shyam Sundar Gupta
versus
Deokinandan Poddar and Ors.

For the petitioner

.....Mr. Ranjan Dutta
.....Mr. Samar Rudra

For the Respondent No. 1

.....Mr. R. K. Lala
.....Mr. G. C. Law

Heard On

.....July 9, 1985.

The Court : In this election petition, Shyam Sundar Gupta, the election petitioner has challenged the election on May 20, 1982, of the respondent No. 1, Deoki Nandan Poddar, as the returned candidate from 143—Jorasanko Assembly Constituency in the State of West Bengal. The grounds of challenge,

mainly, are that the respondent No. 1 is not an elector of 143—Jorasanko Assembly Constituency, that he was not on the date of the said election held on 19th May 1982 or at all an elector for 157—Vidyasagar Assembly Constituency and that the entry at serial No. 661, Part No. 92 of 157—Vidyasagar Constituency did not relate to the respondent No. 1 and the elector mentioned in the said entry and the respondent No. 1 are different persons. Accordingly the respondent No. 1 is not qualified to fill a seat in the West Bengal Legislative Assembly from 143—Jorasanko Constituency and the nomination papers filed by the respondent No. 1 are invalid. Therefore, the election of the respondent No. 1 is void.

The allegations made in the petition are that on 26th April 1982 during the scrutiny of the nomination paper of the candidates for the said constituency for election held on May 19, 1982, it appeared that the respondent No. 1 purported to describe himself in his nomination paper as an elector of 157—Vidyasagar Assembly Constituency in the State of West Bengal, and his name was allegedly registered as elector in Part No. 92, Serial No. 661, of the electoral roll of 157—Vidyasagar Assembly Constituency. It is further alleged that at the time of the said scrutiny it appeared that the respondent No. 1 had purported to file along with the nomination papers a certified copy of the entry, in the electoral roll for 1982 Vidyasagar Assembly Constituency, which reads as follows :

“WEST BENGAL LEGISLATIVE ASSEMBLY

The election petitioner objected to the consideration of the said nomination papers of the respondent No. 1 at the time of scrutiny of the same as the respondent No. 1 was not an elector for any Assembly Constituency in the State of West Bengal and as such he was not qualified to be chosen to fill seat in the Legislative Assembly. The entry in the electoral roll of 157—Vidyasagar Assembly Constituency, the certified copy whereof has been purported to be filed by the respondent No. 1 alongwith his nomination papers, did not and could not relate to the respondent No. 1 who was neither an ordinary resident nor a resident of No. 116/1/1, Mahatma Gandhi Road, Calcutta, nor he is the son of Guru Pratap Poddar, nor aged 50 years as on January 1, 1981, as indicated in the said certified copy. It was, therefore, contended before the Returning Officer that the respondent No. 1 was not an elector within the meaning of section 5 of the Representation of the People Act, 1951.

It is further alleged that during the scrutiny it was contended on behalf of the respondent No. 1 before Returning Officer that his father Ghasilal Poddar was allegedly also known as Gurupratap (Jr.) and reliance was made on 3 several alleged affidavits. The election petitioner also relied on certain affidavits. I shall deal with these affidavits later. In the affidavits in support of the contention of the election petitioner, it was stated that the respondent No. 1 is the son of Ghasiram Poddar and he was a resident of No. 80D, Sarat Bose Road, and he was not the son of Gurupratap of No. 116/1, Mahatma Gandhi Road, Calcutta.

It is also alleged that by letter, dated 27th April 1982, the election petitioner requested the Returning Officer for the said constituency to call upon the respondent No. 1 to produce his passport, gun licence, ration card, driving licence, Income-tax record, etc., but the Returning Officer did not call for the said records nor did the respondent No. 1 produce the same before the Returning Officer.

Upon consideration of the submissions of the election petitioner and the respondent No. 1, the Returning Officer disallowed the objection made on behalf of the election petitioner and held that all the nomination papers of the respondent No. 1 were valid. It is alleged that the said decision of the Returning Officer is erroneous, illegal and not binding on the petitioner.

In the written statement filed by the respondent No. 1 it has been stated that in 1969, in West Bengal Assembly Election, the petitioner contested the said election against the respondent No. 1 from the said 143—Jorasanko Assembly Constituency and the respondent No. 1 was elected as a Member of the Legislative Assembly defeating the election petitioner from the said constituency. In the said election, the respondent No. 1 contested as a resident of the premises No. 116/1, Mahatma Gandhi Road, Calcutta (Part No. 92 of the electoral roll, 157—Vidyasagar Assembly Constituency), and the petitioner being fully aware of the same and knowing the full identity and the residence of the respondent did not raise any dispute. According to the respondent No. 1 he also cast his vote in 1980 Parliamentary Election as a voter from 116/1 Mahatma Gandhi Road. It is also alleged that the name of the father of the respondent No. 1 is late Ghasilal Poddar who was also known as Gurupratap (Jr.), and the respondent No. 1, is a resident of 116/1 Mahatma Gandhi Road, Calcutta. It is further stated that the respondent No. 1 is not the resident of 80D Sarat Bose Road, as alleged by the election petitioner for the last several years and occasionally he stays there with his sons, family and grand children. It is further stated that the name of the respondent No. 1 is appearing as an elector in the electoral roll of 157—Vidyasagar Assembly Constituency for more than 12 years and on the basis of such elector of 157—Vidyasagar Assembly Constituency the respondent No. 1 contested the Legislative Assembly Election of 143—Jorasanko Assembly Constituency held in the years 1969, 1971, 1972 and 1977. Except in 1977 Assembly Election, the respondent No. 1 won all the aforesaid elections and in the said elections also the respondent No. 1 filed nomination paper as an elector from the said premises No. 116/1, Mahatma Gandhi Road, Calcutta and each of the nomination papers of the respondent was duly accepted on the basis that the respondent was elector from 116/1, Mahatma Gandhi Road, Calcutta, a premises within 157—Vidyasagar Assembly Constituency.

It is further stated by the respondent No. 1 that inasmuch as an objection was taken during scrutiny, the Returning Officer adjourned the scrutiny till 27th April 1982 at 3 p.m. to enable the respondent No. 1 to satisfy the identity relating to the entry No. 661 in Part No. 92 of 157—Vidyasagar Assembly Constituency. For the aforesaid purpose, the respondent No. 1 produced gun licence issued by the Calcutta Police, driving licence issued by the Motor Vehicles Department, Calcutta, and identity cards of the respondent No. 1 as a Member of the Legislative Assembly of West Bengal for the years 1969 to 1972. It is alleged that upon being satisfied with the said documents and or as to the identity of the respondent No. 1 relating to the said entry the Returning Officer disallowed the objection of the election petitioner. It is also stated that the respondent No. 1 also produced records to show that the election petitioner was fully aware of the identity of the petitioner from 1969 inasmuch as he contested from the same constituency in 1969 Mid-term Assembly Election.

All other material allegations have been denied by the respondent No. 1.

An application was made by the election petitioner for amendment of the election petition. In the amended application, the election petitioner had stated that at the time when they said, election petition was prepared the election petitioner was not aware that the respondent No. 1 was an elector in the electoral roll for 1982 for 146—Chowringhee Assembly Constituency in the State of West Bengal, his name appearing at serial No. 339, part No. 93 of the said electoral roll. On the contrary, the information available to the election petitioner at that time was that the respondent No. 1 was not at all registered as an elector in any Assembly Constituency in the State of West Bengal for the 1982 election to the West Bengal Legislative Assembly. The election petitioner sought to make out a case that the elector named in Serial No. 661, Part No. 92 of the electoral roll for 1982 for the 157—Vidyasagar Assembly Constituency but was an elector registered at serial number 339, Part No. 93, of electoral roll, 1982, of 146—Chowringhee Assembly Constituency of the West Bengal Legislative Assembly. In fact, the amendment was sought to be made that the respondent did not file valid or proper nomination papers inasmuch as he did not file along with nomination paper or produce at the time of scrutiny thereof a copy of the electoral roll or the relevant part thereof or a certified copy of the relevant entries of 146—Chowringhee Assembly Constituency of which he was an elector but filed or produced a certified copy of the entry at Serial No. 661 in Part 92 of 157—Vidyasagar Assembly Constituency whereof he was not an elector and the said entry did not relate to him.

The said application for amendment was dismissed by my judgement, dated 4th July 1985, on the ground that the election petitioner sought to introduce a new case which is not permissible under the Representation of the People Act, 1951.

On 9th December 1983, the issues were settled by B. C. Basak, J. and the following issues were raised :—

- (1) (a) Can the allegations made in the election petition be a subject-matter of an election petition under the provisions of the Representation of People Act, 1951?
- (b) If not, is this application maintainable?
- (2) Was the respondent No. 1 an elector at the relevant time within the meaning of Representation of People Act, 1950, read with 1951 Act?
- (3) Was the respondent No. 1 qualified to be chosen to fill the particular seat in West Bengal Legislative Assembly at the relevant time?
- (4) Is the election of the respondent No. 1 invalid or void on any of the grounds mentioned in paragraph 17 of the petition?
- (5) To what relief, if any, is the petitioner entitled?

B. C. Basak, J. made it clear that the question whether the respondent No. 1 impersonated anyone or not will be covered by the issue No. 2.

At the hearing, Mr. R. K. Lala, Learned Counsel appearing for the respondent No. 1, has submitted that the first two issues as regards the maintainability of the petition should be decided and thereafter only the Court should proceed to decide other issues in the event it is held that the application is maintainable. It is his contention that the election petitioner in effect has questioned the legality of the inclusion of the name of the Respondent No. 1 in the electoral roll. He has, therefore, submitted that this Court has no jurisdiction to go into his question decided by the Returning Officer in accepting nomination papers by overruling the objections raised by the election petitioner. He has drawn my attention to the various provisions of the 1950 Act as well as of 1951 Act and has submitted that having regard to the principles laid down by several decisions and the provisions of the said Acts, the question raised by the election petitioner in this election petition cannot be gone into by this Court and as such, the election petition is not maintainable. He has relied on several decisions which I shall presently refer.

On the other hand, Mr. Ranjan Dutt, Learned Advocate appearing for the election petitioner, submitted that he is not challenging the entries in the electoral roll. If he would have challenged the entries in the electoral roll then the contention raised by the respondent No. 1 would have been of substance. His only endeavour would be to show that the entries in the electoral roll under serial No. 661 do not relate to the respondent No. 1 at all. He has submitted that unless evidence is adduced, the Court cannot decide the question whether the entries in that electoral roll pertain to the respondent No. 1. He submits that all the issues should be determined and the Court should not dispose the issue relating to the jurisdiction without deciding the other issues only.

To appreciate the contentions raised, it is necessary to refer to certain other facts. The election petitioner made an application before the Returning Officer on 26th April 1982. In the said application, he has stated, inter alia, as follows :—

“Shri Deokinandan Poddar who has filed his nomination paper for standing as a candidate for election to the West Bengal Legislative Assembly is not qualified to stand as such candidate for the following reasons :—

- (1) The said Deokinandan Poddar is not the son of Gurupratap as claimed through the certified copy of voters' list of 157—Vidyasagar Constituency.
- (2) The said certified copy relates to another person who is the son of the said Gurupratap.
- (3) The present candidate is the son of Shri Ghari Ram and a resident of a different constituency.
- (4) The identity of the said candidate is, therefore, not established by the said certified copy of the voters' list.
- (5) The identity of the said Deokinandan Poddar as an elector is, therefore, not established and he does not fulfil the essential qualification as prescribed under section 5(c) of the Representation of the People Act, 1951.
- (6) The said candidate is, therefore, not eligible to stand for election on the basis of the nomination paper filed by him.
- (7) The identity of the candidate is seriously disputed and I object to his candidature.
- (8) The wrong description as per the certified copy of the voters' list filed and relied on by him in support of his candidature is of a substantial nature vitiating the candidature to the core and on the face of the records.
- (9) As such the nomination paper of the said Deokinandan Poddar is liable to be rejected under section 36(4) and 36(6) of the R.P. Act, 1951. The Returning Officer was, therefore requested to consider the said objections and reject the nomination paper filed by the said Deokinandan Poddar, the respondent No. 1.

On 27th April 1982 at the date of hearing of the said objection petition, the election petitioner submitted 3 several affidavits sworn by Ashok Kumar Joshi, Danmal Chandak and Rajendra Prasad Choudhury, in support of the objections raised by the election petitioner.

Danmal Chandak, in his affidavit, stated as follows :—

“That I know Shri Deokinandan Poddar who has filed nomination paper for standing as a candidate for election to the West Bengal Legislative Assembly from 143—Jorasanko Assembly Constituency. He is the son of late Ghasi Ram and resident of 80D Sarat Bose Road, Calcutta. He is not the son of Guru Pratap of 116/1/1 Mahatma Gandhi Road, Calcutta, as claimed by him.”

The affidavit of Rajendra Prasad Choudhury and Ashok Kumar Joshi are in identical terms.

The election petitioner has also made an application for production by the respondent No. 1 of his passport, gun licence, ration card, driving licence, Income-tax records, etc.

Deokinandan Poddar filed an affidavit to the said objection petition stating, inter alia, as follows :—

- “(1) Since 14 years I am an elector of 157—Vidyasagar Constituency and at all elections held since 1969 I have duly casted my vote as a citizen of India and as a voter from premises No. 116/1/1 Mahatma Gandhi Road, Calcutta (hereinafter referred to as ‘the said premises’) presently under 157—Vidyasagar Assembly Constituency (hereinafter called ‘the said Assembly Constituency’).
- (2) In Legislative Assembly Elections of 143—Jorasanko Assembly Constituency held in the years 1969, 1971 and 1972. I contested the said elections as a candidate and I was duly elected to the Legislative Assembly from the said 143—Jorasanko Assembly Constituency. Only in 1977 Assembly Elections I lost the election. In the aforesaid elections I filed my nomination papers as a voter from the said premises in the said Assembly Constituency and my such nomination papers were duly accepted for each of the aforesaid elections.
- (3) I state that at the said premises in the said Assembly Constituency there never was and there is no other person by the name of Deokinandan Poddar save and except myself. Therefore there was and is no question of proving my identity as alleged or at all. If necessary, I shall refer to or produce before you relevant documents in this connection at the hearing.
- (4) In the ensuing election of Legislative Assembly, West Bengal, to be held on 19th May 1982, I have duly filed my nomination papers to contest from the said 143—Jorasanko Assembly Constituency as a candidate of Indian National Congress. Along with the nomination paper filed by me on 24th April 1982, I have also filed a certified copy of the electoral roll of 157—Vidyasagar Constituency in accordance with section 33(5) of Representation of People Act, 1951.
- (5) On 26th April 1982, during the scrutiny of nomination paper by the Returning Officer, objection has been raised by one Mr. Shyam Sunder Gupta one of the contesting candidate on the purported grounds that my father's name has wrongly been described in the certified copy of the voter's list filed along with my nomination paper.
- (6) At the outset save what has been stated herein I deny and dispute each and every allegations contained in the said letter of objection filed by Mr. Shyam Sunder Gupta.
- (7) I state and submit that there is no difference between myself and Deokinandan Poddar as printed in the voter's list of 157—Vidyasagar Constituency. Since 14 years I am a voter from the said premises in the said Assembly Constituency.
- (8) My father late Ghasilalji was also known Gurupratap (Jr.). Therefore if my father's name Gurupratap has shown in the certified copy of the said voters' list it cannot be said to be incorrect or improper. Furthermore my grand-father's name was late Gurupratap, is as such that my father was also called Gurupratap (Jr.). Omission of the words ‘(Jr.)’ after the name of my father shown as ‘Gurupratap’ in the said voters' list is too minor and should be ignored.
- (9) In case it is contended that my father's name should have been shown as ‘Ghasilal’ and not as ‘Gurupratap (Jr.)’ in the said voters' list then in that event without prejudice to what has been stated hereinabove I state and submit that the said mistake or error is of a minor nature and cannot be said to be a substantial defect which may vitiate the nomination paper. The said mistake is a printing error. I state that at premises No. 116/1/1 Mahatma Gandhi Road, Calcutta, wherefrom I am a voter against serial No. 661 of

Part No. 92 of the voters' list of 157—Vidyasagar Assembly Constituency, there was and is no other person, save and except myself known and named Deokinandan Poddar who could have been included in the said voters' list. The identity of mine cannot be a subject of challenge as from the said Jorasanko Assembly Constituency; I contested earlier election as a voter from the said premises in the said Assembly Constituency and was duly elected to the Legislative Assembly, West Bengal. I crave leave to produce relevant document and papers in this behalf at the time of hearing.

- (10) I state and submit that no objection was taken by the said Shyam Sunder Gupta at the time of filing of my nomination on 24th April 1982. Even the Returning Officer accepted the filing of my nomination papers and as such the printing error if any of my father's name in the said voters' list as alleged was deemed to have been overlooked by the Returning Officer and on this ground as alleged by the said Shyam Sunder Gupta my nomination papers as filed on 24th April 1982 cannot be rejected and in fact should be accepted.
- (11) There is no defect whatsoever in the nomination paper in question and the same should be accepted by your Honour otherwise great prejudice will be caused to me and my party."

In support of the contentions raised by the said Deokinandan Poddar three several affidavits were filed sworn by Baldev Kishen Roy, Kushlal Kumar, and Bhagirathmal Ladia. All of them stated that they were residents of 116/1/1 Mahatma Gandhi Road. Two of the deponents said that save and except the said Deokinandan Poddar who has filed his nomination to contest as a candidate of Indian National Congress from 143—Jorasanko Assembly Constituency there is no other person at the said premises No. 116/1/1 Mahatma Gandhi Road, Calcutta, who is also known and named as Deokinandan Poddar. Bhagirathmal Ladia has stated that he has been working as Munim for the family of Deokinandan Poddar of 116/1/1 Mahatma Gandhi Road, Calcutta, since last 30 years. His affidavit was mainly to the following effect :—

- "(2) I state that in course of my work I came to know as the fact is that father of Shri Deokinandan Poddar was also called Gurupratap (Jr.) besides being known or called as Ghasilal.
- (3) I state that the name of Shri Deokinandan Poddar of Late Gurupratap (Jr.) Poddar also known as late Ghasilal Poddar is appearing in the voters' list against serial No. 661, Part No. 92 of the 157—Vidyasagar Assembly Constituency. I further state that at premises No. 116/1/1 Mahatma Gandhi Road, Calcutta, there never was and there is no other person by the same name other than the said Deokinandan Poddar."

After considering the evidence produce, the Returning Officer passed the following order :—

"Heard the candidate and the objector. Perused the documents produced by both sides. Considered.

There is no doubt that the candidate is named Deokinandan Poddar. It is also admitted by all that he is in possession of a part of the premises bearing No. 116/1/1 Mahatma Gandhi Road, Calcutta. The objector claims that he is a resident of some other place and that his father is not named Gurupratap. The candidate claims that his father was not only named Ghasilalji but was also known as Gurupratap (Jr.). He emphatically states that he has been residing for long in the said address.

The fact that Shri Deokinandan Poddar is an elector of 157—Vidyasagar Assembly Constituency cannot be dis-established by three affidavits placed by the objector at the time of hearing because the three persons concerned may not be aware of the second name of Ghasilalji. Whereas we have affidavits of three other persons submitted by the candidate claiming knowledge of the fact that the said Deokinandan Poddar is the son of one Gurupratap or Gurupratap (Jr.). Simply on

the basis of an equal number of affidavits, swearing different sort of knowledge, it will not be proper to deny the democratic right of a candidate to contest an election when his existence and reasonably approximate description in the electoral roll cannot be substantially doubted.

I, therefore, disallow the objection and hold the nomination papers all four of them, valid."

At the outset I would like to dispose of one of the contentions raised as to whether I should hear the entire matter and dispose of all the issues at a time. It is true that the Court has to give judgment on all issues. But where a issue of law is raised relating to the jurisdiction and determination of this issue, one way or other would dispose of the case finally. Such issue may be determined independently of other issues. If the preliminary issues which affect the very entertainment or maintainability of the election petition are decided in favour of the Respondent No. 1 the petition has to be dismissed entirely. Once it is held that this court has no jurisdiction to try or entertain the election petition because of the nature of disputes raised therein, the Court cannot thereafter decide any question on merits. The objection to the jurisdiction has been taken in the first two issues raised and these are being determined before taking evidence on the merits.

The real controversy before me is whether the election petition has challenged the entries in the electoral roll and if so, whether this court has jurisdiction to entertain and try the petition. The various decisions which are relied on by Mr. Lala have laid down in no uncertain terms that entries found in the electoral roll are final and they are not open to challenge in a proceeding challenging the validity of the election.

The first decision cited by Mr. Lala is in the case of Kanailal Bhattnagar v. Nikhil Das and Anr., reported in AIR 1969 Cal. 267. There the Court considered the scope of section 30 of the Representation of the People Act, 1950. There the petitioner was an elector of the Burtola Assembly Constituency in Calcutta. He challenged the election of Nikhil Das, the respondent No. 1 to the West Bengal Legislative Assembly Election in the General Election of 1967 from the Burtolla Constituency. The principal ground on which the petition was based is that Nikhil Das's name appeared in the electoral roll of the Taltola Constituency in Calcutta. In this electoral roll, the address of Nikhil Das has been shown as 124C Dharmatalla Street, but Nikhil Das never was ordinarily resident at the said premises. The petitioner asked, inter alia, for a declaration that the election of the respondent No. 1 was void. One of the issues raised was whether this court has any jurisdiction to entertain or try the said petition and questions involved therein. S. P. Mitra, J., as His Lordship then was, after considering the various provisions of the 1950 and 1951 Acts held as follows:—

"Upon considering the relevant statutory provisions and the authorities aforesaid it is at least clear that a violation or non-observance purely of the Act of 1950 or any rules made thereunder is outside the purview of section 100(1)(d)(iv) of the Representation of the People Act, 1951, and, as such, an election Court which derives its jurisdiction from the 1951 Act is not entitled to look into that violation or non-observance."

A contention was also raised in that case by the petitioner that assuming that non-residence of a voter is not infraction of the Constitution it is an infraction of the 1951 Act itself and as such comes within the scope of section 100(1)(d)(iv) of the 1951 Act. Dealing with the said contention, it was contended that elector in relation to a constituency means a person whose name is entertained in the electoral roll of that constituency for the time being in force and is not subject to any of the disqualification mentioned in section 16 of the 1950 Act. It was contended that the expression "entered in the electoral roll" means lawfully entered and the person cannot be lawfully entered in the electoral roll, unless—

- (a) he is at least 21 years of age; and
- (b) he is ordinarily resident in the constituency.

The Learned Judge dealing with the said contention held as follows:—

"When Mr. Sidhartha Ray says that the words 'is entered in the electoral roll' in section 2(e) of the 1951 Act should be construed as 'lawfully' entered in the electoral roll, he is really asking me to legislate. The definition of an 'elector' in section 2(e), it seems to me, is relevant for the purpose of section 5(c), according to this provision a person shall not be qualified to fill a seat, other than a reserved seat, in the Legislative Assembly of a State unless 'he is an elector for any Assembly Constituency in that State'; here 'elector' means in terms of section 2(e) any person whose name is entered or appears in the electoral roll. But it is possible that although a person's name appears in the electoral roll, he suffers from disqualifications under the Constitution or under the 1951 Act. That is why in section 100(1)(a) of the Act of 1951 it is provided that an election may be declared void on the ground that on the date of his election a returned candidate was not qualified, or was disqualified, to be chosen to fill the seat under the Constitution or this Act..... The preambles to the 1950 and to the 1951 Act when compared side by side make it clear that the Act of 1951 has nothing to do with the preparation of the electoral roll itself. In the premises, I am unable to accept this last contention of Mr. Siddhartha Ray."

After considering the provisions of section 30 of the 1950 Act, the Learned Judge held as follows:—

"To my mind, the above observations unambiguously establish that a High Court trying election petitions under the 1951 Act is in a similar position. It has no jurisdiction to question the legality of inclusion of a person's name in an electoral roll except where it can be shown that there has been a violation of an express provision of the Constitution."

The Learned Judge held:

"For all the reasons aforesaid I am of opinion that the result of the election in the instant case has not been materially affected either by non-compliance with the provisions of the Constitution or by non-compliance with the Act of 1951 or any rules or orders made under Act of 1951. I am further of opinion that this Court has no jurisdiction to entertain or try the present petition or question involved therein. These are my answers to issues Nos. 4 and 5."

In that case the Learned Judge also held that having regard to the decisions on issues of jurisdiction it was unnecessary to discuss any other issues raised in the petition. The Learned Judge, however, decided the other issues as evidence was taken on those issues.

The next decision cited by Mr. Lala is in the case of *Wopansao v. Odyuo* and others reported in AIR 1971 SC 2123. In that case, the election was challenged, inter alia, on the ground that wives of some of the personnel of the 12th Battalion, Assam Rifles, were not eligible to be enrolled as voters in the electoral roll in view of the provisions of section 20(3) of the 1950 Act and some of the voters were not citizens of India and therefore, the votes cast by them were void. There the Supreme Court held as follows:—

"Among the then issues framed at the trial counsel for the appellant advanced arguments only on two issues. First, whether the personnel of the 12th Battalion, Assam Rifles, whose names are registered as service electors in the last part of the electoral roll for 37—Wokha Constituency would, but for their service qualification, have been ordinarily resident of Wokha Constituency within the meaning of section 20(3) of the Representation of the People Act, 1950. Second, whether any of the electors registered as service electors in the last part of the said electoral roll were, not Indian citizens."

"This Court in *Ramaswamy v. B. K. Krishnamurthy*, (1963) 3 SCR 479=(AIR 1963 SC 458), held that the finality of the electoral roll cannot be challenged in a proceeding impeaching the validity of the election. The effect of section 30 of the 1950 Act was construed by this Court in the recent decision in *Kabul Singh v. Kundan Singh*,

(1970) 1 SCR 845 (AIR 1970 SC 340) to be that sections 14 to 24 of the 1950 Act are a complete Code in the matter of preparation and maintenance of electoral rolls and section 30 of the 1950 Act does not confer jurisdiction on a Civil Court to entertain or adjudicate upon a question whether a person is or is not entitled to register himself in the electoral roll in a constituency or to question the illegality of the action taken by or under the authority of the Electoral Registration Officer or any decision given by the authority appointed under the 1950 Act for the revision of any such roll."

"The Civil Court, therefore, would have no jurisdiction to adjudicate upon a question whether the personnel of the 12th Battalion Assam Rifles in the present case were validly registered as service electors. The contention on behalf of the appellant in the present case was that the Electoral Registration Officer had no jurisdiction to register the personnel of the 12th Battalion Assam Rifles as voters in Wokha Constituency because the service personnel under section 20(3) of the 1950 Act would be deemed to be ordinarily resident, on any date in the constituency in which, but for his having such service qualification, he would have been ordinarily resident on that date. The gist of the appellant's contention is that the members having service qualification cannot be registered as voters in the constituency in which they are posted or stationed in service and the Electoral Registration Officer would have no jurisdiction to register the persons having service qualification as voters in the constituency in which they are stationed in service. The jurisdiction of the Electoral Registration Officer who registered the personnel of the 12th Battalion Assam Rifles as voters in Wokha Constituency was impeached on the ground that the service personnel were in the as such they were not eligible to be registered as voters in the as such they were not eligible to be registered as voters in the electoral roll of the said constituency."

The next decision is in the case of *Kabul Singh v. Kundan Singh & Ors.*, reported in AIR 1970 SC 340. There in the election petition, the validity of the Returning Officer's declaration that the appellant has been duly elected to the Punjab Legislative Council was challenged:

"It is not the case of the appellant that Tarsem Singh had incurred any of the disqualifications mentioned therein (section 16 of the 1950 Act). No other provision of law in the Act or in any other law was brought to our notice disqualifying him from exercising his vote. The right to vote being purely a statutory right, the validity of any vote has to be examined on the basis of the provisions of the Act. We cannot travel outside those provisions to find out whether a particular vote was a valid vote or not. In view of section 30 of the 1950 Act, Civil Courts have no jurisdiction to entertain or adjudicate upon any question whether any person is or is not entitled to register himself in the electoral roll in a constituency or to question the illegality of the action taken by or under the authority of the Electoral Registration Officer or any decision given by any authority appointed under that Act for the revision of any such roll. Part III of the 1950 Act deals with the preparation of rolls in a constituency. The provisions contained therein prescribe the qualifications for being registered as a voter (section 19), disqualifications which disentitle a person from being registered as a voter (section 16), revision of the rolls (section 21), correction of entries in the electoral rolls (section 22), inclusion of the names in the electoral rolls (section 23), appeals against orders passed by the concerned authorities under sections 22 and 23 (section 24). Sections 14 to 24 of the 1950 Act are integrated provisions. They form a complete Code by themselves in the matter of preparation and maintenance of electoral rolls. It is clear from those provisions that the entries found in the electoral roll are final and they are not open to challenge either before a Civil Court or before a Tribunal which considers the validity of any election. In *B. M. Ramaswami v. B. M. Krishnamurthy*, 1963-3 SCR 479=(AIR 1963 SC 458), this court came to the conclusion that the finality of the electoral roll cannot be challenged in a proceeding challenging the validity of the election."

Another decision cited is in the case of Ram Awadesh Singh v. Sumitra Devi reported in AIR 1972 SC 580. There the principal questions that arose for decision were whether the defects found in the nomination paper of the appellant are of substantial character within the meaning of that expression in section 36(4) of the Act, and whether it is established that the acceptance of the nomination of the appellant had materially affected the result of the election.

In that case, the Supreme Court held:

"The first question that we have got to decide is whether the defects found in the nomination paper of the appellant are of substantial character. As mentioned earlier, the appellant was fully qualified to be nominated for the election. The only thing said against his nomination is that his nomination paper was not properly filled in. We have earlier seen that a duty is imposed on the Returning Officer by sub-section (4) of section 33 to look into the nomination paper when it is presented and to satisfy himself that the names and the electoral roll numbers of the candidate and that of the proposer as entered in the nomination paper are the same as those entered in the electoral roll. In this case it is proved that the Returning Officer did look into the nomination paper but unfortunately he also did not notice that the name of the appellant had been removed from the electoral roll of Arrah Constituency. If he had noticed that fact, he would have asked the appellant either to correct the mistake or file a fresh nomination paper. We have earlier noticed that the appellant filed his nomination paper on the 6th of January 1969 and the last date for filing the nomination paper was the 8th of that month. That being so, there would have been no difficulty for him either to correct the nomination paper filed or to file a fresh nomination paper. We have earlier noticed that the appellant had with him a certified copy of the electoral roll of the Sandesh Constituency and he had shown the same to the Returning Officer. Mistakes complained of occurred because both the appellant as well as the Returning Officer merely looked into the main voters' list but overlooked the deletion noted in a separate list. But the implication of section 33(4) is that a wrong entry in a nomination paper as regards the name of the candidate or the proposer or their electoral roll numbers is not a matter of substantial importance. That is why the legislature requires the Returning Officer to look into them and if there are any mistakes to get them corrected. What is of importance in an election is that the candidate should possess all the prescribed qualifications and that he should not have incurred any of the disqualifications mentioned either in the Constitution or in the Act. The other information required to be given in the nomination paper is only to satisfy the Returning Officer that the candidate possesses the prescribed qualification and that he is not otherwise disqualified. In other words those information relate to the proof of the required qualifications."

Mr. Lala has also relied on a decision of the Supreme Court in the case of Viveka Nand Giri v. Nawal Kishore Sahi, reported in AIR 1984 SC 856, where the Supreme Court held that the rejection of the nomination paper of the candidate for election on the ground of difference in the age in the electoral roll and the nomination paper would be improper, as the defect was not of a substantial character within the meaning of section 36(4). Consequently the election of the returned candidate would be void under section 100(1)(c). The difference in the age of the candidate as entered in the electoral roll and the nomination paper would fall under the category of "inaccurate description" mentioned in the proviso to section 33(4) and it would be obligatory on the part of the Returning Officer to have it corrected or to overlook it having regard to the language of the proviso. The Supreme Court held:

"As the rejection of the nomination paper No. 42 was not on the ground that there was any difficulty as regards identity on account of the difference in the age mentioned in the electoral roll and the nomination paper, we are clearly of the opinion that the rejection of the nomination paper on the ground of difference in the age was improper, for having regard to provisions of section 36(4) of the Act the defect is not of a substantial character and we hold the

appellant's election is consequently void under section 100(1)(c) of the Act on the ground of improper rejection of the nomination paper. It is for this reason that we dismissed the appeal without any order as to costs.

I have considered the rival contentions. The election petitioner has not disputed that the returned candidate is Deokinandan Poddar but what he says is that the name of father of Deokinandan Poddar, the respondent No. 1, is not Gurupratap but Ghashi Ram and he is not of the age as shown in the electoral roll nor does he reside at 116/1/1 Mahatma Gandhi Road, Calcutta. It is the submission of Mr. Dutt that he is not disputing the propositions laid down by this Court as well as by the Supreme Court in the decisions relied on by Mr. Lala but the said principles will not apply to the facts of this case as the election petitioner has not challenged the entries in the electoral roll. His contention is that those entries do not relate to Deokinandan Poddar, the returned candidate. It is difficult to accept this contention on the evidence produced before the Returning Officer as well as before this Court. As a matter of fact the election petitioner has, if not directly but indirectly, challenged the entries in the electoral roll which are conclusive. The election petitioner has challenged the finding of the Returning Officer at the time of scrutiny of the nomination paper. The finding of the Returning Officer is based on the evidence produced before him. No evidence was produced before the Returning Officer to show that apart from the respondent No. 1 there was another person in the same of Deokinandan Poddar residing at No. 116/1/1 Mahatma Gandhi Road, Calcutta. The Returning Officer considered the affidavit evidence and other documentary evidence produced before him and rejected the objection of the election petitioner holding that the respondent No. 1 was a resident of 116/1/1 Mahatma Gandhi Road, Calcutta. As laid down by the Supreme Court in Ram Awadesh Singh (supra) that what is of importance in an election is that the candidate should possess all the prescribed qualifications and that he should not have incurred any of the disqualifications. The candidate has to be an elector of any of the constituencies. Section 19 of the Representation of the People Act, 1950, provides that every person who is not less than 21 years of age on the qualifying date and is ordinarily resident in a constituency, shall be entitled to be registered in the electoral roll for the constituency. Thus, two conditions are to be fulfilled by an elector; one as regards his age and the other his ordinary residence in the constituency. Under section 20(7) of the Act of 1950 if in any case a question arises as to whether a person is ordinarily resident at any relevant time, the question shall be determined with reference to all the facts of the case and to such Rules as may be made in this behalf by the Central Government in consultation with the Election Commission. Under the Representation of the People Act, 1951, an elector in relation to a constituency means a person whose name is entered in the electoral roll of that constituency for the time being in force and who is not subject to any of the disqualifications mentioned in section 16 of the Act of 1950. Section 16 of the 1950 Act provides that a person shall be disqualified for registration in the electoral roll if he—

- (a) is not a citizen of India; or
- (b) is of unsound mind and stands so declared by a competent court, or
- (c) is for the time being disqualified from voting under any provisions of any law relating to corrupt practices and other offences in connection with the election.

It is nobody's case that the respondent No. 1 has any disqualification for registration in an electoral roll under section 16 of the 1950. Two conditions as indicated earlier are to be scrutinised by the Returning Officer as to whether the candidate has attained the age of 21 and whether he is ordinarily resident in a constituency. Since the respondent No. 1 admittedly was not an elector of the Jorasanko Constituency wherefrom he sought the election, he was required to submit a certified copy of the electoral roll of the constituency where he is an elector. The election petitioner has not disputed that the respondent No. 1 is Deokinandan Poddar. What the election petitioner contends is that the respondent No. 1 although he is Deokinandan Poddar but he is not the Deokinandan Poddar as referred to in the electoral roll and this contention is raised on the footing that the respondent No. 1 is not the son of Gurupratap and the age recorded is not correct and he is not a resident of No. 116/1/1 Mahatma Gandhi Road. This in substance

challenges the entries in the electoral rolls. Once it is held by the Returning Officer on the evidence that the respondent No. 1 was a resident of No. 116/1/1 Mahatma Gandhi Road, Calcutta, the mistake, if any in the name of the father of the respondent No. 1 or his age is mere inaccurate description, clerical or technical or printing error which can be ignored by the Returning Officer. It has to be borne in mind that the Returning Officer has to decide a question raised before him on the evidence adduced within the specified time. Apart from the three affidavits filed by the respondent No. 1 other documentary evidence which were produced before the Returning Officer are, inter alia, (i) licence for the acquisition, possession and carrying of arms and ammunitions, (ii) driving licence and (iii) the identity card of the respondent No. 1 as a Member of the Legislative Assembly issued by the Secretary of the Legislative Assembly under the authority of the Speaker. The Arms Licence shows that the respondent No. 1 is a resident of No. 116/1/1 Mahatma Gandhi Road, Calcutta. This licence was issued on 12th February 1971 and on the licence itself the photograph of the respondent No. 1 is affixed. This licence was renewed from time to time. The driving licence of the respondent No. 1 with his photograph attached on it also shows that his residential address is No. 116/1/1 Mahatma Gandhi Road, Calcutta. The respondent No. 1 was elected as a Member of the West Bengal Legislative Assembly in 1969, 1971 and 1972 but he lost in 1977. The Secretary of the Legislative Assembly issued identity card in 1969, 1971 and 1972 to the respondent No. 1 showing therein that Deokinandan Poddar of Jorasanko Constituency is the resident of No. 116/1/1 Mahatma Gandhi Road. The affidavits which have been filed in support of the case of the election petitioner, only stated that Deokinandan Poddar who had filed nomination paper was the son of one Late Ghasi Ram, a resident of 80D Saras Bose Road and not the son of Gurupratap, a resident of 116/1/1 Mahatma Gandhi Road, Calcutta. On the contrary the affidavits filed supporting the respondent No. 1 stated that father of the Deokinandan Poddar was also known as Ghasilal. It has been stated categorically that at premises No. 116/1/1 Mahatma Gandhi Road, Calcutta, there never was and there is no other person by the same name other than the respondent No. 1. On the basis of the aforesaid affidavits the Returning Officer came to the conclusion "that there is no doubt that the candidate is named Deokinandan Poddar. It is also admitted by all that he is in possession of the part of the premises bearing No. 116/1/1 Mahatma Gandhi Road, Calcutta." Once it is held that the respondent No. 1 is the resident of 116/1/1 Mahatma Gandhi Road, Calcutta, the other question arises is whether the name of his father or the age was correctly recorded or not. Admittedly the respondent No. 1 was elected as Member of the West Bengal Legislative Assembly in 1969, 1971, and 1972. Therefore, in 1969 he could not have been less than 21 years of age. The entry in the electoral roll as regards age is conclusive in the sense that age of the elector is not below 21 years and he has no disqualification as regards age. Thus the tests of residence and age are satisfied.

Several documents have been produced in this Court which also support the finding of the Returning Officer as regards the residence of the respondent No. 1 at the said premises. The electoral roll of 157—Vidyasagar Assembly Constituency for 1976 shows that Deokinandan Poddar is a resident of 116/1/1 Mahatma Gandhi Road, Calcutta and name of his father is recorded as Gashilal Poddar. When Mahatma Gandhi Road was within 33—Bowbazar Assembly Constituency in 1971, the electoral roll of 1971 shows that the respondent No. 1 resides at premises No. 116/1/1 Mahatma Gandhi Road, Calcutta and name of his father is recorded as Ghasilal Poddar. The voter list of Corporation of Calcutta for the year 1979-80 shows that the respondent No. 1 is a resident of 116/1/1 Mahatma Gandhi Road. The electoral roll of 157—Vidyasagar Assembly Constituency for 1980 also shows that the respondent No. 1 resides in the said premises and the father's name is recorded as Ghasilal. One of the documents replied on by the election petitioner himself is a certified copy of electoral of 1981 where the enumeration after recording the name of the respondent No. 1 and his father's name as Gurupratap as resident of 116/1/1 (1st floor) and age on 1-1-81 as 50 has made the following remark:

"Ex—M.L.A.

This person is not at here now."

Thus at best it can be said that there is a mistake as regards the recording of the name of the father of the respondent No. 1. The name of his father has been incorrectly recorded in the electoral roll of 1982. But the fact remains that the respondent No. 1 is a resident of premises No. 116/1/1 Mahatma Gandhi Road, Calcutta. That apart there are certain other evidence which would also go to show that the finding of the Returning Officer is correct. Rule 64 of the Conduct of Election Rules, 1961 provides that the Returning Officer shall declare the election in the prescribed form and complete and certify the return of election in Form 21E and send the signed copy thereof to the Election Commissioner and Chief Electoral Officer. The prescribed form for return of election under rule 64 of the said Rules provides that the name of the candidate, the valid votes polled against each candidate shall be furnished. That apart the total number of valid votes polled, total number of rejected votes, total number of tendered votes are also to be mentioned therein. Thereafter a declaration has to be appended by the Returning Officer giving the name of the candidate returned and the address of the candidate in the 1969 election, the Returning Officer had given the certificate on 11th February 1969 in the return of election that "Deokinandan Poddar of 116/1/1 Mahatma Gandhi Road, Calcutta-7, has been elected to fill the seat" (from 131—Jorasanko Assembly Constituency). Similar certificate was also issued on 12th March 1971 after 1971 election.

I have referred to the evidence which was relied on by the Returning Officer and the evidence which has been disclosed in this proceeding only to emphasise that the dispute was as to whether the respondent No. 1 was an ordinary resident at premises No. 116/1 Mahatma Gandhi Road, Calcutta, at the material time. In view of section 20(7) of the 1950 Act such dispute if raised has to be decided by the Returning Officer. No name could be included in the electoral roll unless the person concerned has completed 21 years of age at the material time and is an ordinary resident in a constituency. Accordingly, the Returning Officer was concerned only to find out whether the candidate was a resident of the premises in question as the certified copy of the electoral roll of 157—Vidyasagar Constituency was produced before him by the respondent No. 1. It cannot be disputed that the respondent No. 1 was elected in the elections held in the elections of 1969, 1971 and 1972 showing his address at No. 116/1 Mahatma Gandhi Road, Calcutta. He could not have been elected unless he was an elector of a constituency. By challenging that the respondent No. 1 was not a resident of No. 116/1 Mahatma Gandhi Road, Calcutta, the election petitioner has in my judgment challenged the entries in the electoral roll. Under section 36(7) of the 1951 Act, the Returning Officer at the time of scrutiny of the nomination has to proceed on the basis of a certified copy in the entry in the electoral roll which is conclusive evidence of the fact that the person referred to in that entry is an elector for that constituency. That is what has been done by the Returning Officer on the evidence produced before him. I am, therefore, unable to accept the contention of Mr. Dutt, that the election petitioner has not challenged the illegality of the entries in the electoral roll but he has disputed that such entries do not relate to the respondent No. 1.

Even assuming that the name of the father of the respondent No. 1 was not correctly recorded, this will not in any way affect the validity of the nomination paper. Section 33 of the 1951 Act deals with the presentation of nomination papers and requirements of a valid nomination paper. Section 33(4) provides that on the presentation of a nomination paper, the Returning Officer shall satisfy himself that the name and electoral roll numbers of the candidates and his proposer as entered in the nomination paper are the same as those entered in the electoral rolls. The proviso to section 33(4) is material for the purpose of this case which is in the following terms:

"Provided that no misnomer or inaccurate description or clerical, technical or printing error in regard to the name of the candidate or his proposer or any other person, or in regard to any place, mentioned, in the electoral roll or the nomination paper and no clerical, technical or printing error in regard to the electoral roll numbers of any such person in the electoral roll or the nomination paper, shall affect the full operation of the electoral roll or the nomination paper with respect to such person or place in any case where the description in regard to the name of the person or place is such as to be commonly understood; and the Returning Officer

shall permit any such misnomer or inaccurate description or clerical, technical or printing error to be correct and where necessary, direct that any such misnomer, inaccurate description, clerical technical or printing error in the electoral roll or in the nomination paper shall be overlooked."

Under rule 4 of the Conduct of Election Rules, 1961, every nomination paper shall be completed in the prescribed form. The prescribed form for filing a nomination paper for Assembly Election is in form 2B. The material part of the said nomination paper is as follows:

"NOMINATION PAPER

Election to the Legislative Assembly of.....(State)

I nominate as a candidate for election to the Legislative Assembly from the.....Assembly Constituency.

Candidate's name.....

His postal address.....

His name is entered at S. No.....in Part No.....of the electoral roll for the.....Assembly Constituency.

My name.....and it is entered at S. No.....in Part No.....of the electoral roll for the.....Assembly Constituency.

Date:.....

(Signature of proposer)"

It is thus evident that in the nomination paper, the name of the candidate and his postal address are to be given and the declaration has to be furnished by the candidate as regards his age. The name of the father is not at all material so far as the candidate is concerned.

In view of section 30 of the 1950 Act this Court cannot adjudicate upon a question whether a person is or is not entitled to register himself in the electoral roll in the constituency or to question the illegality of the action taken by or under the authority of the Electoral Registration Officer. If the respondent No. 1 was not a resident of premises No. 116/1/1 Mahatma Gandhi Road, Calcutta as claimed and shown by him then the Electoral Registration Officer might have committed illegality but that question cannot be gone into or adjudicated upon by this Court in a proceeding challenging the validity of the Election. If the contention of Mr. Dutt is accepted, then this court has to adjudicate upon the finality of the Electoral roll which is not permissible under the provisions of the 1950 Act.

As laid down by the Supreme Court in the case of Ram Awadesh Singh v. Sumitra Devi (supra) and Vivekanand Giri v. Nawal Kishore Sahi (supra) that a wrong entry in a Nomination paper even as regards the name of the candidate or the proposer or their Electoral roll Nos. or the age is not a matter of substantial importance. At the time of scrutiny of the nomination paper, the Returning Officer has to find out whether the candidate has possessed all the prescribed qualifications and he has not incurred any of the disqualifications either under the Representation of the People Act or under the Constitution. The Returning Officer has satisfied himself that the candidate being the respondent No. 1 possesses the prescribed qualifications and that he was not otherwise disqualified. Had the nomination paper of the respondent No. 1 been rejected because of the difference in the age as recorded in the Electoral Roll and as shown in the nomination paper such discrepancy would have come under the category of inaccurate description mentioned in proviso to section 33(4) of the 1951 Act, and rejection of the nomination paper on that ground would have been improper. There was no dispute as regards the identity of the respondent No. 1 before the Returning Officer as he was elected from the said Constituency thrice earlier. The name of the father of the candidate is not required to be mentioned in the nomination paper and mistake in the father's name is immaterial and of no consequence at all.

Before I part with this case I would like to refer one other aspect of this case. The objection raised by the election petitioner was with regard to the validity of the nomination paper filed by the respondent No. 1. At the time of scrutiny the election petitioner and the respondent No. 1 relied on certain affidavits and documentary evidence. Even assuming that this Court can go into the question which was decided by the Returning Officer, unless it could be shown that the finding given by the Returning Officer is not warranted by the evidence produced before him, this Court cannot, in any event, set aside the finding of the Returning Officer in this regard. The validity or otherwise of the finding of the Returning Officer has to be judged in the light of the evidence adduced before him and not in the light of the subsequent facts which might be brought in the election petition.

For the reasons aforesaid Issues No. 1(a) and 1(b) are answered in the negative. In other words this Court has no jurisdiction to entertain and try the present petition. Since I have held that this Court has no jurisdiction to entertain and try this petition in view of the allegations made in the petition, the other issues do not call for determination and are not answered.

This petition is, therefore, dismissed with costs.
